Soft Skills in Chemistry Practicals

submitted to IQAC,

Padmabhushan Dr. Vasantraodada Patil Mahavidyalaya, Tasgaon

22<sup>nd</sup> February to 01<sup>st</sup> March 2021

# **Course Details**

Title of the Programme: Online Course on Soft Skills in Chemistry PracticalsOrganizing Department: Department of Chemistry

Duration: 22<sup>nd</sup> February to 01<sup>st</sup> March 2021LMS: Google ClassroomParticipants: UG and PG Chemistry studentsNo. of Participants: 582: Female : 342Male : 240

# **Highlights of the Course**

\* One week Online Course

\* Conducted on Google Classroom

\* Seven modules based on basic practical techniques

\* Video, notes, quiz and discussion per module

\* 582 student participants

\* Certificates issued with grades after compilation of results

# Acknowledgement

- We are very much thankful to Principal Dr. Milind Hujare for constant support and encouragement to conduct this course.
- ➤We are thankful to all faculty members, for active participation in preparation of modules and non teaching staff of Chemistry Department for their support during preparation and while conducting the course.

### **Learning outcomes**

### Soft Skills in Chemistry Practicals

- \* To Learn the laboratory skills and safety measures to be followed while working in the laboratory
- \* To Learn how to prepare solutions of various concentrations and develop soft skill for titrations
- \* To learn correct method for boiling point and melting point
- \* To enhance the skill in recrystalliazation and TLC technique
- \* Development in soft skills in basic techniques will enhance the total skill while working in

### **Introduction to the course**

Chemistry practicals always need skills alongwith theoretical knowledge, so enhancing practical skills of students is always remain a challenge for Chemistry teachers. Students studying at undergraduate level as well as postgraduate level need to learn some new practical skills and to enhance the skills.

In view of this, we have decided to design a course to develop soft skills in Chemistry students of undergraduate and postgraduate level. For this, it was needed to select some basic techniques required while doing day to day praticals. Taking into consideration basic requirements, a course was designed.

This course is conducted by using Google Classroom as Learing Management System. Chemistry students have joined the Google Classroom and attended the course by studying the modules displayed daily on Google Classroom.

Due to pandemic situation, there was delay in starting practical classes in this academic year. This course was conducted online just before the commencement of practical classes, as the students will get benefited well on time.

### **Design of the Course**

This course included Seven modules :

#### Safety Dos and Don'ts in Chemistry Laboratory

Safety Dos and Don'ts, which the students have to follow while working in the Chemsitry Laboratory.

#### Preparation of Standard Solution

Various concentration terms and methods of preparation of solutions with various concentration terms, the procedure of preparation of standard solution, weighing, dissolution, dilution.

#### Standardization of Stock Solution

Standardization of supplied solution using a standard solution, demonstration of titration method.

#### Determination of Melting Point

The method of melting point determination including all basic steps like capillary sealing, filling of compound in capillary, heating paraffin oil, observation of exact melting point.

#### Determination of Boiling Point

The method melting point determination including all basic steps like use of fusion tube for filling of liquid, heating of paraffin oil, observation of exact boiling point.

#### > Purification of Organic Compound by Recrystallization

Demonstration of recrystalliazation in detail, choice of solvent, dissolution of sample, filtration and crystallization.

#### Separation of Components by TLC

Demonstration of TLC including suitable solvent system, development of chromatogram, separation of components and identification of components.

## **Preparations before the course**

Videos for the course were prepared in the Chemistry Laboratory by the faculty members and edited afterwards to final videos.
