**REPORT ON
“CRACKER FREE DIWALI”**

Diwali is the festival of lights that brings good luck, happiness and prosperity to all. The lighted diyas not only illuminate the environment but also has to shuck the darkness of poverty and ignorance. But the important question is how far are we able to understand and appreciate the real fact that we are moving away from the real spirit of the fiesta of light? The festival steadily but definitely is becoming one of the major problem for the environment due to the carelessness of the people all around. Crackers contain toxic compounds like Copper and Cadmium and due to change in the weather these particles / pollution mixes with fog and becomes smog causing asthma attacks, bronchitis, symptoms of allergic rhinitis including running nose and headaches.

Smog worsens the situation by suspending the toxic particles in the air for longer time. It's high time that we people should recognize the problem and should build a roadway by which we can make a healthy and balanced environment.

Under the guidance of Hon. Principal Dr. Milind Hujare this year, our NSS department decided the diwali got some extra sweet with the landmark ruling by the Supreme Court, an initiative to keep the villages and city comes under Tasgaon taluka ever increasing pollution problem in control. So we organized cracker free diwali campaign from 11th November 2020 onwards.

This “World Wetlands Day” which is celebrated on 2nd of February, we celebrate Flamingos and their Wetlands. This date marks the signing of the 'Convention on Wetlands' in 1971 at Ramsar, Iran.

Wetlands are essential ecological features in any landscape as they are home to hundreds of species of birds along with fishes, mammals and insects. Earth planet is slowly losing its wetlands which are home to the large hydrophytes, mangrove stretches- the storm dividers for the coastal lands. It's time we create awareness about the wetlands and its inhabitants on this eco-day. Therefore this is a call to all teachers, parents and students who believe in this cause and would like to help us in developing an Educational and Innovative work on Wetlands.

WHY WORLD WETLANDS DAY IS CELEBRATED

The Ramsar Convention offers an international structure in order to globally support the conservation and sustainable management of the wetlands. It is celebrated to make aware the public, discuss the value of wetlands, its beneficial aspects as well as to promote its conservation and use for enhancing the overall level of the human health, growth, and development.

The event celebration plays a great role in making healthy wetlands in order to deliver the worth ecosystem service to benefit the common people. The demands of water required for growing crops, energy supply and various needs of the industry are also focused during the celebration. It is celebrated to promote the proper use of wetlands and their resources.

It is also celebrated at the WWF-India Secretariat, New Delhi to promote the common people understandings about the importance of the link between wetlands and water as “without water there will be no wetlands – and without wetlands, there will be no water!”

REPORT ON

Celebration of International Biodiversity Day
22nd May 2020

Online MCQ Quiz

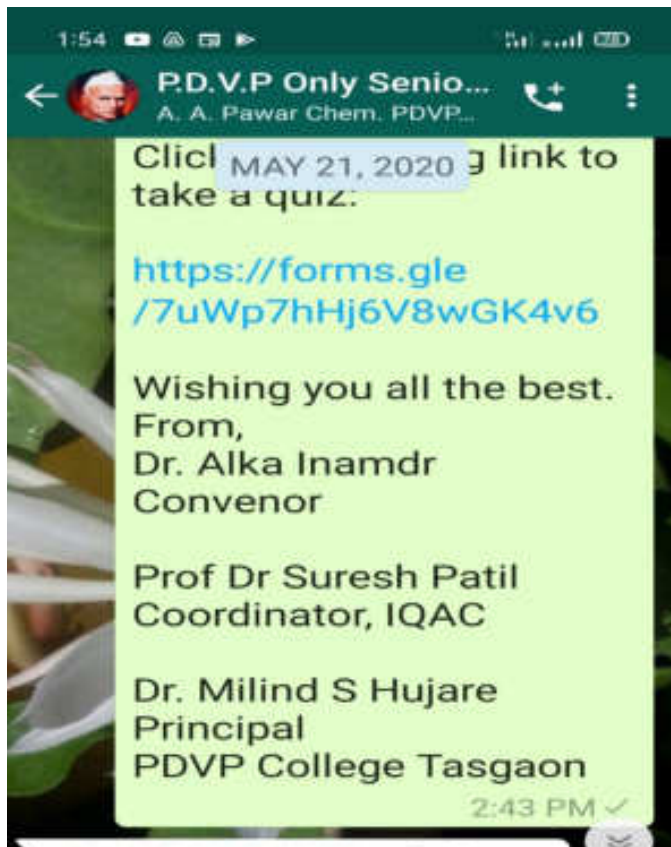

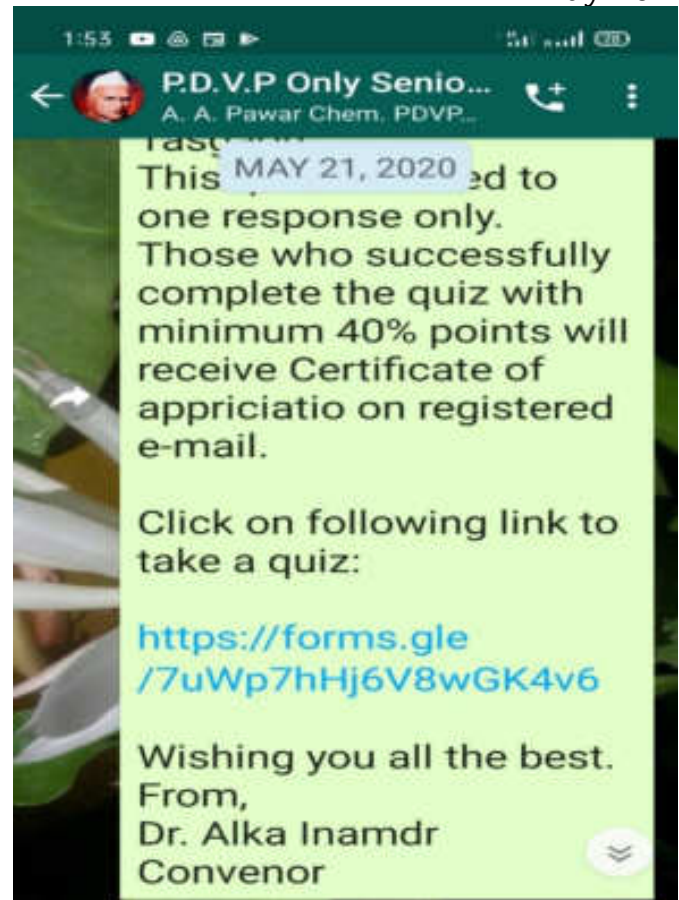

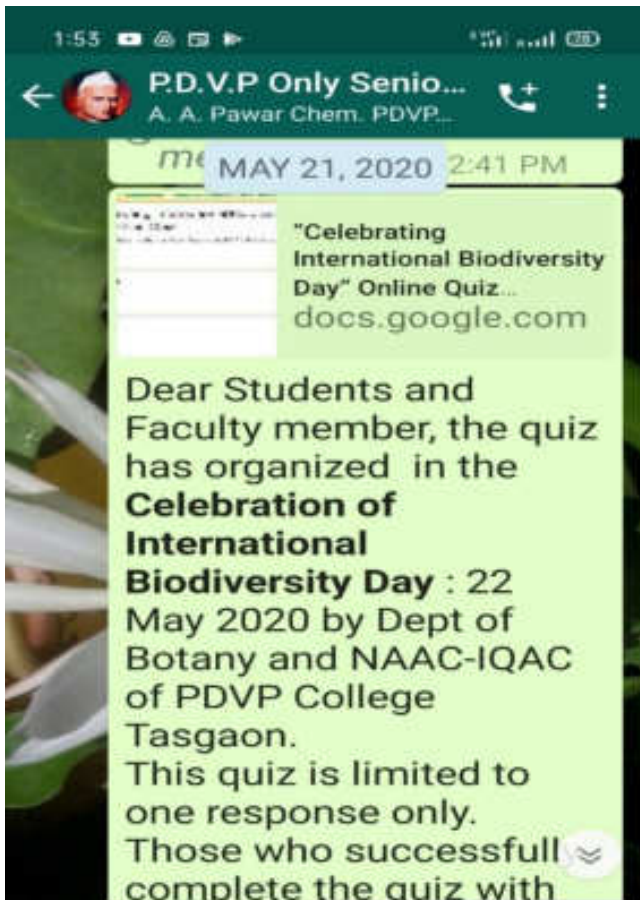

In the Lockdown Period MCQ Test on **Celebration of International Biodiversity Day 22nd May** was conducted by Department of Botany and Internal Quality Assurance Cell (IQAC) of the College on 22nd May 2020 for Students and Faculty by Google Form. The United Nations has proclaimed May 22 The International Day for Biological Diversity (IDB)

➤ **Purpose of the Event:**

The principal objective of event was to to increase understanding and awareness of biodiversity issues. When first created by the Second Committee of the UN General Assembly in late 1993, 29 December (the date of entry into force of the Convention of Biological Diversity), was designated The International Day for Biological Diversity. In December 2000, the UN General Assembly adopted 22 May as IDB, to commemorate the adoption of the text of the Convention on 22 May 1992 by the Nairobi Final Act of the Conference for the Adoption of the Agreed Text of the Convention on Biological Diversity. This was partly done because it was difficult for many countries to plan and carry out suitable celebrations for the date of 29 December, given the number of holidays that coincide around that time of year.

• **In 2020 theme of celebration was “Our solutions are in Nature”**

- Online MCQ Quiz Test on **Celebration of International Biodiversity Day 22nd May** was conducted from 21st May 2020. It was open for 5 days to students and faculty by Google Form.
- Autogenerated Certificates was received immediately by mail who got beyond 40% points after attending the test.
- The Notice by WhatsApp and detailed questions are as follows.....

WOMEN EMPOWERMENT CELL

REPORT ON

Angel's Welcome Programme

On the Occasion of International Women's Day

Event	Angel's Welcome Program
Date	06th March 2020
Venue	Gynecologists Hospitals in Tasgaon
Total Participants	Female: 60
Organizer	Women Empowerment Cell

Whenever a baby is born, celebrations follow. There are endless feasts and parties to welcome the beautiful new life that is formed. There is happiness, enjoyment, exhilaration, and tears of joy. However, in some places, this kind of an environment persists only if it's a male child, that is, a son.

So...the Women Empowerment Cell has decided to visit hospitals with their prior information to welcome newborn girl child, i. e. **Angel's Welcome Programme** with mother and her relatives with the Rose flower and sweet for her parent and relatives.

Principal Dr. Milind Hujare, Dr. Alka Inamdr, Co-ordinator, Women Empowerment Cell, Prof. (Dr.) Suresh Patil, NAAC Co-ordinator of the College, Dr. Vilas Pawr, Vice Principal, Shri Vijay Jadhav and 15 Girl students of the College have visited 3 Hospitals in Tasgaon. Dr. Prashant Patil, Dr. Anjali Patil and Dr. Suresh Lugade are the Gynecologists in Tasgaon.

Principal Dr. Milind Hujare felicitated Dr. Prashant Patil, Gynecologist

Principal Dr. Milind Hujare felicitated Dr. Anjali Patil, Gynecologist

Parents are very happy with us and enjoyed the programme very nicely. We succeed to focus the role of girl in livelihood.

Relatives along with Angel's mother appreciated this programme and they have explained their views and also thank us.....

We explained the important points like.....

1) If it's a girl child, then disappointment clouds over. It is surprising enough that this kind of discrimination still preserves in many parts of the world. The girl child is not given enough worth, for it is believed that it is the son who is going to take full responsibility of the family and carry forward the legacy. However, times have changed, and women have proved their equality and value. Sadly there are some people who have not come to terms with this revolution.

2) It is a well-known fact that a girl child is more obedient, honest and sincere than a boy child. Most of the times, girls don't take things for granted. It is easier to handle them rather than boys. Boys usually get easily distracted, with all

the sports and technology! Girls appear to be more meticulous and have a stronger sense of responsibility towards their family and their own aspirations.

3) The perfect example would be our mother. Our mother teaches us everything from the very beginning. Similarly, women are perfect mentors, who can guide you throughout your life. Wisdom comes naturally to them. A girl/woman has to face numerous difficulties in her lifetime, which helps her gain experience, makes her prudent and teaches her many of the important lessons quite early in her life.

4) A girl child will always think twice before taking a step and keep all the aspects in mind. She will think about the repercussions and how a particular decision might affect the people surrounding her.

5) A woman is the glue that binds the entire family together. It is truly said that a family is incomplete without a girl. A girl brings light and contentment in the family.

6) A girl child is a pillar of strength for her family and provides all kinds of support, be it moral, emotional or financial. She supports all her loved ones with all her might. Normally, it is observed that women are able to make rational decisions, which are helpful in the long run.

7) Nothing is achievable without success, and there are thousands of success stories among women. Girls are equally capable to reaching new heights and fulfilling their dreams.

8) The 21st century woman is an all-rounder. Whatever field she chooses for herself she will make sure she outshines in it. Not just professionally, she shines in all of her endeavours, be it hobbies or other personal tasks. She is diligent and adds a magic touch to whatever she decides to pursue.

9) From being a wife/mother/daughter/sister to a lawyer/CEO/architect/manager and what not, a girl manages to excel in every

aspect of her life. She handles everything with grace and maturity. Multitasking is something which comes naturally to them!

“A strong woman builds her own world. She is one who is wise enough.”

सोळा मातांचा सन्मान; तासगावात पीडीव्हीपी महाविद्यालयाचा 'हट के' उपक्रम

तासगाव, ता. ट. : महिला दिनाच्या कार्यक्रमाचा बोलबाला असताना येथे एक 'हट के' उपक्रम झाला. महिलादिनी कन्यारत्नांना जन्म देणाऱ्या तरुवले १६ मातांचा दवाखान्यात जाऊन सत्कार करण्याचा अभिनव उपक्रम तासगाव महाविद्यालयातर्फे राबवण्यात आला. 'बेटी पढाओ बेटी बचाओ' हा नारा प्रत्यक्ष सार्थ करत महिलांनी या आगळ्यावेगळ्या केलेल्या सत्काराने माता हरखून गेल्या. बाळंतकळी सोसतानाही या मातांच्या डोळ्यांतील भाव या सत्काराने बोलका झाला. पान २ वर >

आजही मुलगी जन्मली, की समाजात नाक मुरडले जाते. पुरुषसत्ताक संस्कृतीत महिलांना दुय्यम स्थान आजही दिले जाते. मात्र बदलत्या काळानुसार महिलांची 'हम भी कुछ कम नहीं' हे कव्चम दाखवले आहे. आज लष्करातही महिलांनी कर्तृत्वाचा झेंडा रोवल्याने एकही क्षेत्र महिलांनी सोडलेले नसावे. पुरुषांच्या बरोबरीने नव्हे तर त्यांच्याही एक पाठल पुढे टाकण्याची कामगिरी महिलांनी साधलीय.

मुलगा वंशाचा दिवा असला तरी मुलगी पणती होऊ शकते हेच अधोरेखित झाले आहे. महिला दिनाच्या निमित्ताने पद्मभूषण डॉ. वसंतराव पाटील महाविद्यालयाच्यावतीने खऱ्या अर्थाने 'स्त्री सन्मान' करण्यात आला. महिला दिनाच्या एक दिवस आधी चक्क प्रसूतिगृहात जाऊन कन्यारत्नांना जन्म देणाऱ्या मातांचा सत्कार करण्यात आला. येथील प्राजक्ता हॉस्पिटलमधील १६ मातांचा हा सन्मान होता. यावेळी प्राचार्य

तासगाव : महिला दिनाच्या पार्श्वभूमीवर तासगाव महाविद्यालयातर्फे कन्यारत्नांना जन्म देणाऱ्या मातांचा सत्कार करताना प्राचार्य डॉ. मिलिंद हुजुरे, उपप्राचार्य डॉ. व्ही. वाय. पवार आदी

डॉ. मिलिंद हुजुरे, उपप्राचार्य डॉ. व्ही. वाय. पवार, प्रा. डॉ. व्ही. जे. जाधव, प्रा. डॉ. एस. एस. पाटील, प्रा. विजयसिंह जाधव, प्रा. डॉ. अलका पाटील यांच्यासह महाविद्यालयातील विद्यार्थिनींच्या साक्षीने हा 'हट के' सोहळा झाला. प्राजक्ता हॉस्पिटलच्या डॉ. प्रशांत पाटील यांनी स्वागत केले.

FARMERS TRAINING PROGRAM ON HAZARDOUS EFFECTS OF PESTICIDES

Name of the Place: A/P : Savarde Tal : Tasgaon Dist : Sangli

Date of the Activity: 28/02/2020

Type of the Participants: Farmers

Number of Participants: 27 (Gender : Male : 25 Female : 00)

Name of the Department Organized the Function: Botany

Introduction:

Pesticides are poisons and, unfortunately, they can harm more than just the “pests” at which they are targeted. They are toxic, and exposure to pesticides can cause a number of health effects. They are linked to a range of serious illnesses and diseases from respiratory problems to cancer.

The most widely known organochlorine pesticide is dichlorodiphenyltrichloroethane, i.e., the insecticide DDT, the uncontrolled use of which raised many environmental and human health issues. Dieldrin, endosulfan, heptachlor, dicofol, and methoxychlor are some other organochlorines used as pesticides

That structure makes dichloropropene one of the simplest of a class of chemicals called organochlorines, which include some of the most toxic

pesticides available. Banned as unsafe by the European Union, 1,3-dichloropropene is nevertheless one of the most commonly used pesticides in the United States, pound for pound.

Toxicity of Pesticides. Acute toxicity of a pesticide refers to the chemical's ability to cause injury to a person or animal from a single exposure, generally of short duration. The four routes of exposure are dermal (skin), inhalation (lungs), oral (mouth), and eyes.

Pesticides are widely used in agriculture, other workplaces and households. Some chemicals used in pesticides have been linked to cancer through laboratory and epidemiological research. However, there is no conclusive evidence linking pesticide use in general with cancer.

Pesticides: (chemicals used for killing pests, such as rodents, insects, or plants)

- 2,4-Dichlorophenoxyacetic Acid (2,4-D)
- Aldrin/Dieldrin.
- Atrazine.
- Chlordane.
- Chlordecone.
- DDT, DDE, DDD.
- Endosulfan.
- Endrin (Endrin aldehyde)

Respiratory exposure is particularly hazardous because pesticide particles can be rapidly absorbed by the lungs into the bloodstream. Pesticides can cause serious damage to nose, throat, and lung tissue if inhaled in sufficient amounts. Vapors and very small particles pose the most serious risks.

Pesticides approved in the United States but banned or being phased out in at least two of the three other nations in the study include: 2,4-DB, bensulide, chloropicrin, dichlobenil, dicrotophos, EPTC, norflurazon, oxytetracycline, paraquat, phorate, streptomycin, terbufos and tribufos

Pesticides have been implicated in human studies of leukemia, lymphoma and cancers of the brain, breasts, prostate, testis and ovaries. Reproductive harm from pesticides includes birth defects, still birth, spontaneous abortion, sterility and infertility.

Pesticides can be grouped according to the types of pests which they kill:

- Insecticides - insects.
- Herbicides - plants.
- Rodenticides - rodents (rats and mice)
- Bactericides - bacteria.
- Fungicides - fungi.
- Larvicides - larvae.
- What you should do -

If pesticide splashes on the skin, drench area with water and remove contaminated clothing. Wash skin and hair thoroughly with soap and water. Later, discard contaminated clothing or thoroughly wash it separately from other laundry. Inhaled poison.

Signs and symptoms of poisoning may include:

- Burns or redness around the mouth and lips.
- Breath that smells like chemicals, such as gasoline or paint thinner.
- Vomiting.
- Difficulty breathing.
- Drowsiness.
- Confusion or other altered mental status.

Activity: Keeping in mind the serious hazardous effects of pesticides an awareness/training program has been organized at village Savarde Tal :Tasgaon Dist : Sangli on Date :28/02/2020. More than fifty farmers in and around Savarde village are gathered in the Vitthal Mandir of Savarde village. The Deputy Sarpanch of the village is the SavardeShri. Kadam Saheb is the chief guest of the function. Some of the eminent farmers like Mr.Mane has also attended the program. The head of the botany department Prof. Dr.

N.A.Kulkarni has presided the function. The assistant professor of botany Dr.A.P.Inamdr has given the lecture on various hazardous effects of pesticides on human being and on nature. The students of Third year Botany and Zoology departments are worked as the volunteers of the training program.

Best Laboratory Safety Management

Students develop attitudes towards safety and acquire habits of assessing hazards and risks when they are young. Students come from diverse backgrounds and have various levels of preparation. Most of them have no previous hands on training in handling chemicals or equipment. Support for laboratory safety programs is the responsibility of college system administrators. College system administrators should appreciate the need for establishing safety and health instruction as a fundamental part of a science curriculum and should operate their college in as safe a manner as possible.

Based on these objectives, College Research and Innovation Committee in association with Shivaji University Lead College Scheme organize one day online/offline workshop on “Best Laboratory Safety Management” to develop awareness about laboratory safety in students for their safety when they work in the college laboratory.

For this workshop, we invite **Dr. G. S. Grover** as a resource person. Our college Principal **Dr. Milind Hujare** sir is in the president’s Chair. Dr. Grover was worked as a chief scientist & head of safety management in CSIR-NCL, Pune. He guides the student about lab safety. He gave very important information, how to work in the laboratory with the safety rules and information. He provides the information very easily and in a simple language to understand the student. The presentation of Dr. Grover is so effective that the students enjoy the whole session. He used different modes for presentation like slides, videos, and even demo to clarify the point. Overall Dr. Grover explains the laboratory safety rules to students to improve practical skills and avoid laboratory accidents.

In the presidential speech Principal, Dr. Milind Hujare sir gave information about our college. Especially, he concentrates on the science department and focuses on the criteria, events, and programs which are provided by the college administration to the students for their safety laboratory.

In conclusion, due to the initiation and motivation of our college principal Dr. Milind Hujare Sir and the support of Shivaji University Lead College Scheme, the College Research and Innovation Committee successfully organize the one day workshop on laboratory safety. **Mr. P. R. Khade, Coordinator, Lead College Scheme** also supports this event. Dr. P. B. Teli, Dr. S. K. Shinde and Dr. Haji Nadaf as a member of college research and innovation committee played an important role for organizing the workshop successfully.
