REPORT BY MENTOR

out of all students five students are found weak in communication. Due to more strength it is impossible to observe & communicate them personally in class. but due to that it is easy to know their problems to us.

All students gives good response for this activity. They share their problems about college, syllabus & also financial. Many of problems are solved by the communication with them. This was a great experience for me.

ACTION TAKEN REPORT BY MENTOR

After allotment of mentee by our college IQAC Department, three meetings were organized. Number of issues were discussed with allotted mentee. It was observed that during the meeting discussion majority students were interested in the participation in Co-curricular and curricular Activities and Extra-curriculars and some mentee discussed on about Administration, drinking water, canteen facilities, Library facilities. Travelling pass this facility were not good and they were unsatisfied on this issues with us. Few students also interested in the discussion on career opportunity in future. B.A-III year students are interested in Activity based teaching method, problem based teaching method, as specialty project work and field work.

I have also learned that nearly all student were not participation in discussion in first meeting. But in second meeting they start their problem in bilateral dialogue manner with mentor.
