Mentor Mentee Scheme

The process of Mentoring is an individualized form of counseling and guidance activities. It addresses the needs of the students to have a friend, a counselor and a confidante on the campus. The practice is aimed at fostering a better rapport between the students and the teachers at a personal level. Effective mentoring begins with the faculty and depends upon the healthy relationship between faculty and students.

Mentor:

A mentor is a teacher acting both as a friend and a role model who supports and encourages a student in his/her academic and personal growth. The mentor guides a student in his /her academic pursuits and emotional and psychological development, particularly in the latter's' transition phase. The mentor also guides his wards in how much they should try to achieve and how. College has adopted and implemented a Mentoring System as a student support measure.

Each mentor of a group of 25-30 students allocated to him/her by IQAC/Head and mentor collects personal information from the mentee without touching sensitive issues or forcing any information out of the mentee. Critical issues are brought in the notice of the Head. The teacher meets the wards informally outside class hours as well and guides them regarding their career options. A documented record of the mentoring process is maintained by the mentor and the Head for reference purposes.

Responsibilities:

The Mentor

- Meets the mentees at least twice a semester.
- Continuously motivates the students in all academic matters.
- Advises students regarding choice of electives, project, summer training etc.
- Contacts parents/guardians if situation demands.
- Advises students in their career development/professional guidance.
- Intimates HOD and suggest if any administrative action is called for.
- Maintains a detail progressive record of the student.
- Maintains a brief but clear record of all discussions with students.

The Supervisor (HOD)

- Meets all mentor of his/her department at least once a month to review the proper implementation of the system
- Advises a mentor wherever necessary.
- Initiates administrative action on a student when necessary.

Within the college as per the guideline from NAAC highlighted the necessity and importance of student mentoring where mentors will invest their energy time and expertise to nurture the growth of mentee which will boost the self confidence of mentee to appreciate excellence in their performance.

This can be executed department level under the leadership of Head of the department as chief supervisor or chief proctor. He will allocate the list of students from respective adopted course to every mentor from the department and advise them to have an agreement between mentor and mentee.

The chief supervisor (HOD) will advise the mentors about means of communication with mentee through e-mail, discussion records by telecommunication or by meeting in person. After executing the practice of mentoring scheme, each mentor will assess the goals of mentoring of all mentee by analysis, through performance appraisal report of each mentee and will submit his report to chief supervisor.
