-: INTRODUCTION :-

Our patron honorable Bapuji Salunkhe started this institution by motto of “Dissemination of Education for Knowledge, Science and Culture” in mind with negligible credentials. We are all still working on the same motto to excel in the field of education. In continuation of best practice, Post Graduate Department of Chemistry in the academic year of 2017-18 decided to start a book bank scheme for post graduate students. The objective of the activity was to make all the relevant reference books available for students which they cannot afford by themselves.

The department is well equipped with two separate departmental libraries. The old one is completely composed of reference books purchased from the grants of Major and Minor research projects of fellow teachers. The new one on the other hand is composed of reference books lent from Main library of the college. Every student can borrow two reference books at a time. And the books could be exchanged or renewed after a week. All the information of books issued and returned to the departmental library has been recorded in the muster since its inception.

In addition to this book bank scheme was initiated which offers more than 25 reference books for a group of 5 students. These books are issued at the start of the term. And collected at the end. Under this scheme the group of students can take the advantage of same scheme as well as individual reference books simultaneously. Group of students receive the book bank for both years separately. The group of books has been designed so as to meet the demand of the syllabus and compitive exams at the same time. So far more than 800 entries have been registered in the muster and nearly 200

students have enjoyed the advantages of this scheme. We feel proud to run this scheme as one of the best practices of the department.
