As one of the significant processes to determine the smooth functioning of a nation, voting is a fundamental right that every individual should exercise, irrespective of age, knowledge, or experience. From healthcare to food, educational policies to jobs, from highways to taxes, elected representatives take crucial decisions on these vital issues that affect our lives. Hence, voting becomes instrumental in the development of a nation. Although millions of people vote, every vote counts to select the right candidate for the country. The process of voting acts as a gateway to various forms of civic engagement, especially when young people face massive challenges such as unemployment, student loans, and educational policies. ## About Workshop

### **“Democracy, Elections and Good Governance”**

The Polity of India is the largest exercise in democracy in the world. Defying what would have been the preconditions for the working of a successful democracy the makers of modern India have relied and kept faith upon the people to work out a democratic polity. Democracy in India has been worked out keeping in mind the context in which it had to be operated. It not only establishes the norms of representative, majority, bicameral at the National and State governments, but also works out a distributive formula for representing the most marginal sections i.e., the representation of SC/ST and others in the National Parliament, the State Legislatures and the Local Self Governments. The objective was that the people of India should have a maximum representative government which will articulate their interests, make laws and policies and make an arrangement of a just distributive process of societal resources. It therefore, becomes imperative that there should be a fair and deliberative electoral process, accessible representative institutional channels and mechanisms of interests articulations through which national, State and Local Governments are formed and established. It is also imperative again to understand how the representative governments are able to create a governance environment and architecture which will enable the government to deliver the aspirations of the citizens. Since, the institutional framework has to be worked in an ever changing socio-political context; the ability of the institutions to adapt to the changing environment is always a challenge as well as an opportunity of governance innovation. It is from this understanding that a one day's online webinar has been organized by the Department of Political Science on the theme “Democracy, Elections and Good Governance”. The subthemes on the one hand open up deliberation relating to the formation of the institutional arrangement of 'democracy' and its intervening element-'elections'. On the other hand, there is a group of subthemes which expect deliberations on the deliverables or the 'governance' in a democratic framework. There are also sub-themes which focus upon the problems, challenges and policy innovations in the working of a democratic polity. The webinar is interdisciplinary in nature underlining the fact that the theme can be approached from diverse disciplinary frame works.

Academic Council of University has introduced this paper ‘Democracy, Election and Good Governance’ as a compulsory paper at Part-I of Degree Course as per the letter from state Election commission dated 13/06/2017.

1. Above paper is compulsory for Part-I of Degree. It is meant for self-study
2. The Candidate will not be considered eligible for degree certificate unless he passes in said examination.

It is also known as **World IP Day**. Due to coronavirus pandemic, it is necessary to be safe therefore, WIPO is not organizing any physical events, and encourages the community of World IP Day to celebrate via virtual channels. The day is celebrated to make people know how intellectual property (IP) rights encourage innovation and creativity. This year World IP Day puts innovation and supports the efforts to create a green future. It is a need to care for our earth our home.

It was established by the World Intellectual Property Office (**WIPO**). It promotes the role of IP in stimulating innovation and creativity. In fact, World Intellectual Property Day provides an opportunity for IP offices, inventors and enterprises whether big or small to discuss and connect each other about the emerging various innovations that will help in shaping the world and also improves the living of people.

On the occasion of this, our college Research and Innovation Committee decided to celebrate world IPR day for the awareness about IPR in society. From that view, we designed a quiz regarding the information about IPR. Our principal Dr. Milind Hujare permits regarding the same and supports us. College IQAC coordinator Dr. Alka Inamdar madam suggest all the necessary directions for this celebration. Finally, we design the quiz, provide the link to the teachers and students. Near about 116 participants solve the quiz within two days. We thank all the participants for celebrating world IPR day with us.

### **REPORT ON**

# **First Aid Demonstration and Guidance**

<b>Event</b>	<b>Training Workshop on First Aid Demonstration and Guidance</b>
<b>Date</b>	<b>07<sup>th</sup> December 2019</b>
<b>Venue</b>	<b>Room No. 28</b>
<b>Total Participants</b>	<b>Female: 89</b>

The Women empowerment Cell of the College organized a programme of Training and Demonstration of First Aid for girl students on 07<sup>th</sup> December 2019 at 10.00 to 6.00 pm.

First aid is a combination of simple procedures and common sense.

The aims of first aid are.....

- **To preserve life:** Saving lives is the main aim of first aid.
- **To prevent further harm:** The person who has experienced the injury must be kept stable, and their condition must not deteriorate before medical services arrive. This may include moving the individual away from harm, applying first aid techniques, keeping them warm and dry, and applying pressure to wounds to stop any bleeding.
- **Promote recovery:** Taking steps to promote recovery may include applying a bandage to a wound.

### **Why first aid training is so important?**

- **Increases safety:** The basis of first aid training is "prevention". It is always better to be safe than to be sorry. Knowledge of first aid promotes the sense of safety and well being amongst people, prompting them to be more alert and safe in the surroundings they dwell in.
- **Helps save lives:** If a person who is trained to give first aid administration happens to see any casualty in his vicinity, immediate action can be taken and lives be saved.
- **Helps relieve pain:** Some injuries require a very simple solution like applying ice pack or a quick rub. A ride to the emergency room is not necessary, at least not for some time.

- **Makes people more secure:** Knowing that you can save your own life when required, or that of the people you know or those in trauma during some emergency helps you relax more and be more secure.
- **Prevents the situation from becoming worse:** A trained person would know how to keep the situation from becoming bad to worse. They will provide temporary treatment which will keep the condition of the victim from deteriorating, till professional help arrives.

<b>Chief Guest</b>	<b>Dr. Mrunalini Bhosale</b> <b>Miss. Aishwarya Bhosale</b>
<b>President</b>	<b>Principal Dr. Milind Hujare</b>
<b>Organizer</b>	<b>Dr. Alka Inamdr</b>

Programme was introduced by Dr. Alka Inamdr, Chairperson of the Women Empowerment Cell and welcomed the Speaker of the function Dr. Mrunalini Bhosale, and her colleague Miss Aishwarya Wandare, President of the function Principal Dr. Milind Hujare.

Principal Dr. Hujare Sir in his presidential speech elaborated many issues of the first aid and its importance. He explained the knowledge of first aid which promotes a healthy, secure and a safer environment, and instills confidence amongst people, their families, their colleagues and associates. Basic first aid knowledge is very helpful in dealing with trauma situations. Not just the medical help they provide, but the confidence they exhibit is very helpful during casualties. Being trained to provide first aid is useful to oneself and society.

Dr. Mrunalini Bhosale has practically explained every aspect of first aid box, its necessity etc.

In her speech, Human bodies are susceptible to injuries, illnesses and trauma. We never know when any injury may happen to us or the people we love or those who are around us. Thus it is always good to have some amount of basic knowledge to take care of critical situations, to keep it from going from bad to worse or till the medical help arrives.

Administering first aid to victims in the event of accidents, mishaps and occurrences during office and school hours or in the case of some accident is encouraged. One must know the basics of administering first aid and this knowledge is gained by getting trained.

**GLIMPSES OF THE EVENT.....**

According to her the most common term referred to in first aid is ABC. This stands for airway, breathing, and circulation. A fourth step will appear in the emergency procedures for some facilities.

- **Airway:** Make sure the airway is clear. Choking, which results from the obstruction of airways, can be fatal.
- **Breathing:** Once the airways are confirmed to be clear, determine whether the person can breathe, and, if necessary and provide rescue breathing.
- **Circulation:** If the person involved in the emergency situation is not breathing, the first aider should go straight for chest compressions and rescue breathing. The chest compressions will promote circulation. This saves valuable time. In emergencies that are not life-threatening, the first aider needs to check the pulse.

- **Deadly bleeding or defibrillation:** Some organizations consider dressing severe wounds or applying defibrillation to the heart a separate fourth stage, while others include this as part of the circulation step.

Evaluating and maintaining ABC with a patient depends on the training and experience of a first aider. As soon as ABC has been secured, the first aider can then focus on any additional treatments.

It is important to use a primary survey to make sure the scene is clear of threats before stepping in to help:

The first aider then needs to carry out a secondary survey, checking for deformities, open wounds, medic alert tags, and swellings.

If the injured person is breathing safely, carry out a rapid whole-body check for the following:

- open wounds
- deformities
- medical alert tags advising of underlying conditions
- swellings

This is known as a secondary survey. As soon as this has been completed, place the individual in a recovery position. At this point, the first aider should call for an ambulance.

The programme was closed by the vote of thanks by Miss. Nikita Kadam.

Miss. Gauri Patil, Miss. Komal Ghotkar, Miss Nikita Pawar appreciated the programme and they gave their feed back. Miss. Kheradkar Madam from faculty appreciated the prograame.
