1. Introduction

Shri Swami Vivekanand Shikshan Sanstha's, Kolhapur was established by the great educationalist and social reformer Shikshanmaharshi Dr. Bapuji Salunkhe in June 1954 with the motto "Dissemination of Education for Knowledge, Science & Culture". The primary aim of the founder was to open the vistas of education to the deprived section of the society. He believed that education would become the fulcrum of change and uplift of the society. Our management runs 325 High Schools, 23 conventional colleges and 05 professional institutions including Engineering, Nursing and Pharmacy.

About the Conference: The realm of Education is currently experiencing a significant metamorphosis, driven by the integration of Artificial Intelligence (AI). This transformative shift is the focal point of the concept note, which aims to scrutinize the prevailing trends and challenges arising at the dynamic intersection of Artificial Intelligence in Education and Humanities. At the heart of this evolution is a conference designed to unite various stakeholders, including educators, technologists, academicians, research scholars, post-graduate students, professionals, and policy makers. The primary objective is to engage in an in-depth exploration of the unfolding trends and immediate challenges associated with leveraging the potential of AI for teaching, learning, and its practical applications. The conference serves as a platform for knowledge exchange and collaboration, fostering discussions that span the spectrum from the incorporation of Artificial Intelligence in curriculum development to its implications for personalized learning. As the conference brings together a diverse array of perspectives, it becomes a crucible for the synthesis of ideas and the formulation of strategies to address the evolving landscape of AI in education. The discussions are poised to shape the future of education, with a keen focus on optimizing the potential of Artificial Intelligence to enhance teaching methodologies, improve learning outcomes.

ANNCAL 2024

Vice Chancellor of Shivaji University Kolhapur Honorable Prof.Dr.D.T.Shrike delivered speech at the time of inauguration ceremony of Multidisciplinary National Conference on Artificial Intelligence at our College. He has given best wishes to honorable Principal Dr.Milind Hujare for organizing first National Conference on emerging subject AI in area of Shivaji University Kolhapur. Artificial Intelligence, or AI, has captured the imagination of scientists, engineers, and thinkers for decades. It represents the culmination of human innovation and the quest to create machines.

He said that we should watch, read, or buy, AI is all around us. It's driving innovation in healthcare, finance, transportation, and countless other fields.

As we celebrate the advancements in AI, we must also grapple with ethical questions. How do we ensure that AI systems are fair and unbiased? How do we protect privacy in an age of data-driven AI? But complex issues that require careful consideration.

He told that in conclusion with great power comes great responsibility AI is a force that is shaping our future in profound ways. It holds incredible potential to improve our lives, but it also challenges us to think critically about how we harness this power responsibly.

AI has made remarkable strides in recent years, leading to breakthroughs like self-driving cars, advanced medical diagnostics, and even AI-powered art. However, its impact extends far beyond these glamorous applications. AI is transforming industries, revolutionizing customer service through chatbots, enhancing agriculture through precision farming, and enabling personalized education through adaptive learning systems.

I am happy to say that this multidisciplinary national conference on AI will become milestone in our Shivaji University, Kolhapur. Mathematics is a tool , it is language to share views of other subjects. Mathematics has no questions .Questions of other subjects can be solved by using mathematics. This conference is organized by Mathematics, Statistics and Computer Science. I give best wishes for this conference.
