Certificate Course in Museology

Introduction:

Museology or the field of museum studies is an educative and inspiring one. A career in this field is quite interesting as it allows you to educate others about our past history through the medium of museums. Programs in museology are unique in the sense that they are based upon research and the evidence that is available to us of the past civilizations. Museums have relevance in today's society as they are very much instrumental in inspiring men and women alike in learning from our ancestors. Students from different background can do this course. They can be from arts, history and so on. Needless to say, the skills learned are very helpful in managing museums.

The Museum has introduced a Certificate course in Museology with the aim of carving out critically and creatively prospective museum professional with traits and skills related to good museum practices. The certificate programme has created a niche for itself in the academic and professional realm of Museum management. The Museum has been granted affiliation to the PDVP Mahavidyalaya, Tasgaon for conducting this course.

Need for a Course on Museology:

In the twenty first century there is an increase in the number of museums managed by government, public and private sector. In fact there has been an increase in the number of small museums with interesting concepts. In proportion to this, there is dearth of skilled human resource for the management and upkeep of the museums on one hand and conserving the specimens on the other. Only a few colleges have museology course. In this there is not a single course, Certificate, diploma or degree in museology. Keeping this in mind, a certificate course in Museology at Department of History, PDVP Mahavidyalaya, Tasgaon is being started.

Rules and Regulation:

The Certificate course in Museology is a one month certificate course. The basic course covers various aspects of collection management, exhibit designing, project implementation, communication aids and leading edge ideas in conservation practices. These are taught through lectures, practical assignments. The course is divided in four weeks. There are four topics each in the weeks covering theory and practical. Classroom sessions are held on Friday and Saturdays.
