DEPARTMENT OF GEOGRAPHY  
2020-2021**

## **Introduction:**

A population is defined as a group of individuals of the same species living and interbreeding within a given area. Members of a population often rely on the same resources, are subject to similar environmental constraints, and depend on the availability of other members to persist over time.

Population studies is considered to be a scientific study of size and composition of population. Means how many numbers and how many of them belong to one category or the other. It covers population processes which are 5 and the most important them are fertility, mortality and migration, others are nuptiality or marriage and social mobility.

History, definition, nature and scope of Population Studies, relationship of other social sciences with population studies, Social structure, Social and Racial Groups, Society and Culture and its role in Population studies, Social Institutions (family, marriage, kinship, and religion) and their role in influencing population studies, Social change in India, Tribes in India and their culture, Social-Psychological concepts and its relevance to Population studies, communication concepts, processes and its relevance in context of Population studies.

Rates, Ratio, Proportion, percentages, density, incidence and prevalence, person-years Rate of Population Growth: Arithmetic, Geometric and Exponential growth rates, Decadal growth rate Doubling time, concept of population stabilization and net reproduction rate unity Crude and Standardized methods for fertility and mortality estimates.

Population is not the study of population but it is meant for the population awareness and population consciousness of the bad effects of population growth and its remedial measures. It is the education about population growth and its remedial measures. It is the education about population matter like fertility, mortality and migration and its remedial measures to check the rapid growth of population. It aims at the growth of the qualitative life of the people. In the various fields of healthcare, a population study is a study of a group of individuals taken from the general population who share a common characteristic, such as age, sex, or health condition. This group may be studied for different reasons, such as their response to a drug or risk of getting a disease. Population studies are broadly defined as the scientific study of human populations. Major areas studied include broad population dynamics; fertility and family dynamics; health, aging, and mortality; and human capital and labor markets. Researchers in population studies also focus on methodology. Population studies is an interdisciplinary area of study; scholars from demography, epidemiology, sociology, economics, anthropology, and various other disciplines study populations.

### BOARD OF STUDIES:

Board of studies an advisory body of certificate course in Population studies is appointed y by the principal they examine the course contents of the new curriculum taking in account to the population studies trends of the geography department in collage the board of studies comprises of eminent persons in the geography to give guidance to geography department to give guidance in academic matter.

The present composition of the board of studies is:

- Principal – chairman
- Expert in professional archivist – Member
- Professor belonging to the field Demography- Member
- The term of the member of the board is of two years. In the events of any vacancy either due to resignation, retirement or death etc. Person in the respective field of study will be appointed by the principal.

### MEMBERS OF THE BOARD OF STUDIES

Sr. No.	Members of the BOS	Address/ Institute	Signature	Remark

(Dr. Milind Hujare)

## **COURSE OUTLINE:**

In social sciences there is huge demand for population studies. At present the subject is taught mostly as an optional paper in different departments such as Sociology, Economics, Geography, and Psychology. A few universities and IIPS also offer diploma and masters course in the subject. There is a demand for modular courses among the Administrators, Market research workers, Media communication, and NGO workers. The aim of the course is to equip them with knowledge usually imparted in diploma and masters courses. Thus the course will serve a base for higher degrees such as Ph.D. Aspirants for civil service exams are also expected to benefit from this.

### **Objectives of the course:**

To study the trend of population growth and the population distribution, which describes the trends of population and its relationships with the different aspects of social parameters like education level, extent of urbanization, employment, living standard, etc

**Population** will be examined in relation to its sociological determinants and consequences. In the latter part of the course we will shift our attention to the relationship between **population** and issues such as urbanization, family change, **population** aging and health, economic growth, and the environment.

### **Learning outcomes:**

- Analyse, interpret and criticise demographic, health and public health research.
- Demonstrate an understanding of the essential principles of modern demographic methods and statistical software's and how to apply them.
- Employ basic computational skills used in the analysis of population, health and development.
- Undertake original research projects that make a contribution to the body of knowledge for human wellbeing.
- Undertake jobs related to health and development.
- Develop confidence in works related to public welfare.
- exhibit the ability to disseminate research findings to the scientific community and the general public

### **COURSE PLAN:**

**Month1:** Introduction to population studies, Population geography, Population, ecology population and environment and quality of life Population dynamics.

**Month 1:** Population growth and development Population policies and planning

**Month 2:** Population and family welfare Techniques of population analysis Population and society

**Month 2:** Statistical techniques in population studies, Population growth Women Population concepts aging

### CERTIFICATE COURSE IN POPULATION STUDIES: COURSE HIGHLIGHTS

Top Recruiting Areas.	There is a demand for modular courses among the Administrators, Market research workers, Media communication, and NGO workers. Thus the course will serve a base for higher degrees such as Ph.D. Aspirants for civil service exams, and different competitive exams are also expected to benefit from this.
Top Job Areas	Research & Educational Institutes, policy Maker, Planning officer, Director General of Health Service, Anthropological Survey of India, Register General of India, Director General of Central statistical organization.
Top Job Positions	Assistant professor, surveyor, Researcher, Planning officer, policy Maker, Health officer.

### JOB POSITION AND JOB DESCRIPTION

Job Position	Job Description
Researcher,	They are responsible to collect information. Thus the course will serve a base for higher degrees such as Ph.D. and M. phil. Research In Different Educational Institutes.
Assistant professor	Assistant professor In Different Educational Institutes and universities.
surveyor	Different sector collecting of the data in Educational and government Institutes. There is a demand for modular courses among the Administrators, Market research workers, Media communication, and NGO workers.
Health officer	There is a demand for modular courses among the Administrators, Market research workers, Media communication, and NGO workers. Provide population data to the Director General of Health Service.
Planning officer, policy Maker	Policies and plan maker and planning officer In Different Educational and government Institutes.

Day and Date: ~~Friday, 20/04/21~~

Total Marks: 50

Time:

Instructions: 1) Attempt any 25 questions.

2) Each question carries TWO marks

Choose the most correct alternative out of four alternatives A, B, C and D given below for each questions and put it in the

1. Who is called Father of Human Geography?

A) Reed B) E. Ravenstein C) F. Ratzel D) Edward A.  C

2. The highest density of world population is found in.....

A) North-West Asia B) South-west Asia C) South-East Asia D) North-East Asia  C

3. The most important physical factor that determines the distribution of population is.....

A) Climate B) plateau C) plain D) mountain  A

4. Who wrote the book 'An Essay on the Principle of Population'?

A) Reed B) E. Ravenstein C) Thomas Robert Malthus D) Edward A.  C

5. The procedure of systematically acquiring and recording information of people officially is called.....

A) Census B) Record C) Book D) None of the above  A

6. In India first complete census was conducted in the year -

A) 1650 B) 1660 C) 1881 D) 1960  C

7. The National Population Policy (NPP) of India was adopted .....

A) 1650 B) 2000 C) 1760 D) 1960  A

8. Push and Pull Theory.....

- A) Reed      B) Everett Lee      C) Ackerman      D) Edward A.  B
9. Distance Decay Model is.....
- A) Reed      B) E. Ravenstein      C) Ackerman      D) Edward A.  B
10. Mobility Transitional Model is.....
- A) Reed      B) E. Ravenstein      C) Zelinsky      D) Edward A.  C
11. Model of Migration Decision is.....
- A) Reed      B) E. Ravenstein      C) Clark      D) Edward A.  C
12. Law of Intervening Opportunities is.....
- A) Reed      B) E. Ravenstein      C) Stouffers      D) Edward A.  C
13. The Mobility Transition Model of Migration was given by .....
- A) Zelinsky. W      B) E. Ravenstein      C) Ackerman      D) Edward A.  A
14. Who among the following is the propounded of Demographic Transition Theory?
- A) Reed      B) E. Ravenstein      C) Ackerman      D) W.S. Thompson and FW. Note stein  D
15. The Population Resource Region Theory (1970) was given by.....
- A) Edward A. Ackerman      B) Reed      C) Note stein      D) Clark  A
16. According to Ackermans division of world into population - resource regions India falls under the category of.....
- A) Chinese type      B) Egyptian Type      C) Sindhu type      D) Nile Type  B
17. Who of the following formulated the logistic curve theory of population?
- A) Edward A. Ackerman      B) Pearl and Reed      C) Clark      D) None of the above  B
18. The movement of people from one place to another is known as.....
- A) Edward A. Ackerman      B) Pearl and Reed      C) Migration      D) None of the above  C
19. How many stage population growth are involved in demographic transition Theory.
- A) 8 stages      B) 7stages      C) 6 stages      D) 5 stages  D
20. Which one of the following statements represents population pyramid with wide base .
- A) High Fertility Rates      B) 7stages      C) 6 stages      D) 5 stages  B
21. Who proposed the 'Law of Migration Theory'?
- A) Reed      B) E. Ravenstein      C) Ackerman      D) Edward A.  B
22. The total world population was 500 million in the year.

A) 1650                      B) 1660                      C) 1760                      D) 1960

✓  A

23. The phase of rapid growth of Indian population was lying between periods of.

✓  B

A) 1951-1961                      B) 1981-1971                      C) 1961 – 1971                      D) 1951-1981

24. India's decadal population growth rate has been continuously declining.

A) 1981-2001                      B) 1850-1930                      C) 1961-1971                      D) 1981 – 2001

✓  D

25 The second doubling period of world human population was between which of the following time slots.

A) 1981-2001                      B) 1850-1930                      C) 1950-1970                      D) 1951-1981

✓  B
