As one of the significant processes to determine the smooth functioning of a nation, voting is a fundamental right that every individual should exercise, irrespective of age, knowledge, or experience. From healthcare to food, educational policies to jobs, from highways to taxes, elected representatives take crucial decisions on these vital issues that affect our lives. Hence, voting becomes instrumental in the development of a nation. Although millions of people vote, every vote counts to select the right candidate for the country. The process of voting acts as a gateway to various forms of civic engagement, especially when young people face massive challenges such as unemployment, student loans, and educational policies. If we support and encourage them to vote, it will certainly help raise a new and modern generation of responsible citizens who will actively get involved in building a prosperous nation.

AIMS AND OBJECTIVES OF CAMPAIGN:

- Awareness creation and education
- Create a buzz about participating in elections
- Change perception of voting among the students

ABOUT THE WEBINAR
