Everything started in 1976, when the United Nations General Assembly made the decision that 1981 should be the International Year of Disabled Persons. The 5 years between the making of that decision and the actual Year of Disabled Persons were spent contemplating the hardships of the disabled, how the opportunities of the disabled could be equalized, and how to ensure the disabled take part fully in community life enjoying all of the rights and benefits non-disabled citizens have.

The Department of Physics, Padmabhushan Dr. Vasantrodada Patil Mahaavidyalaya, Tasgaon visited to Prathamik Ashramshala, Tasgaon to celebrate Divyang day on 03/12/2018. Disability Day, or the International Day of People with Disability, is a day that has been promoted by the United Nations since 1992. The aim of Divyang day is to encourage a better understanding of people affected by a disability, together with helping to make people more aware of the rights, dignity and welfare of disabled people. As well as raise awareness about the benefits of integrating disabled persons into every aspect of life, from economic, to political, to social and cultural. Disability Day is not concerned exclusively with either mental or physical disabilities, but rather encompasses all known disabilities, from Autism to Down Syndrome to Multiple Sclerosis.
