Welcome and Preface By Dr. Megha Patil

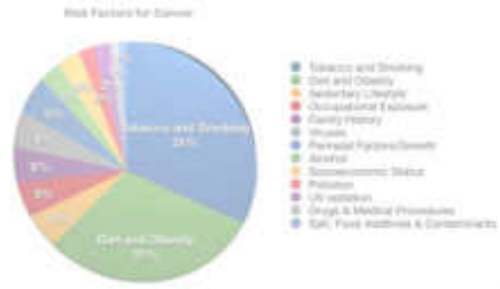

Introduction of Chief Guest By Dr. P. B. Teli

Speech of Chief Guest Dr. Sandeep Patil

Risk factors for Cancer causation

- 57% of men and 11% females in India, between 15 to 49 years of age use tobacco
- Global youth tobacco survey in India- 10-20% of students in 8th to 10th grades use tobacco

6

Population 287750

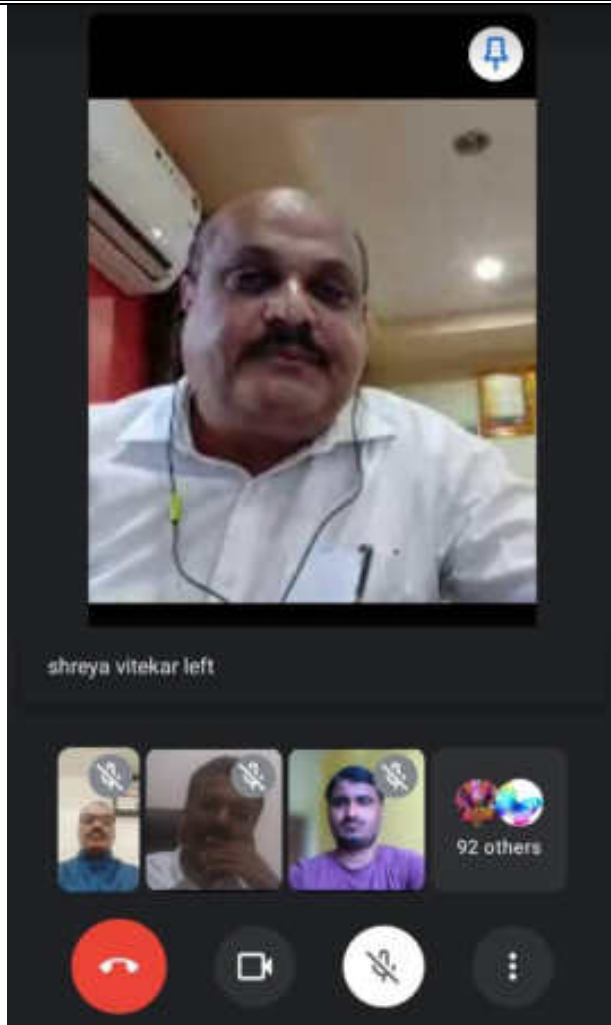

• STATE DATA

- People using tobacco = 2.6 crores (31.4%)
- 40% of these will die an early death
- Mortality of covid: 2-4%

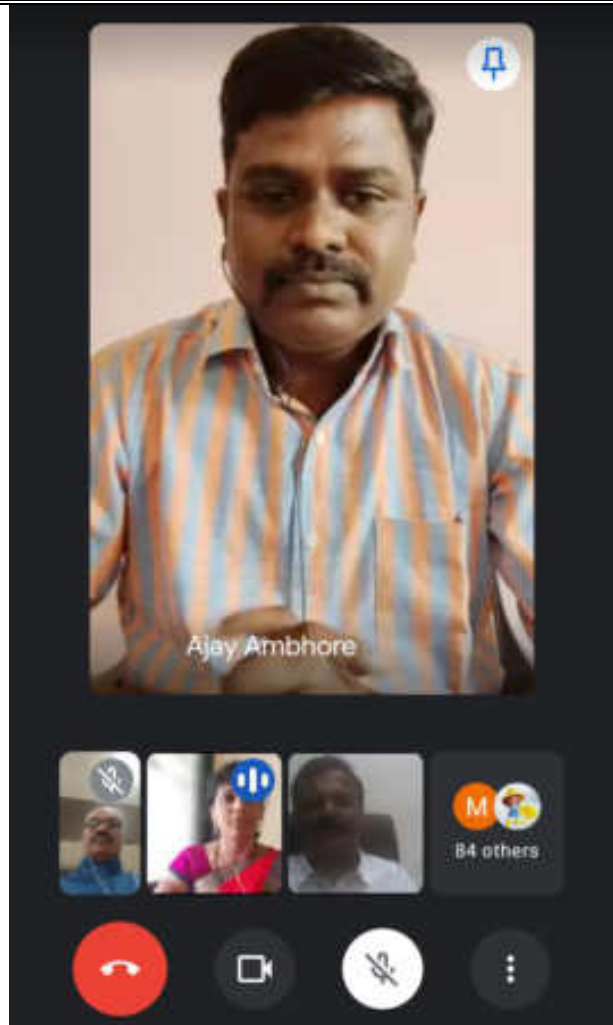

7

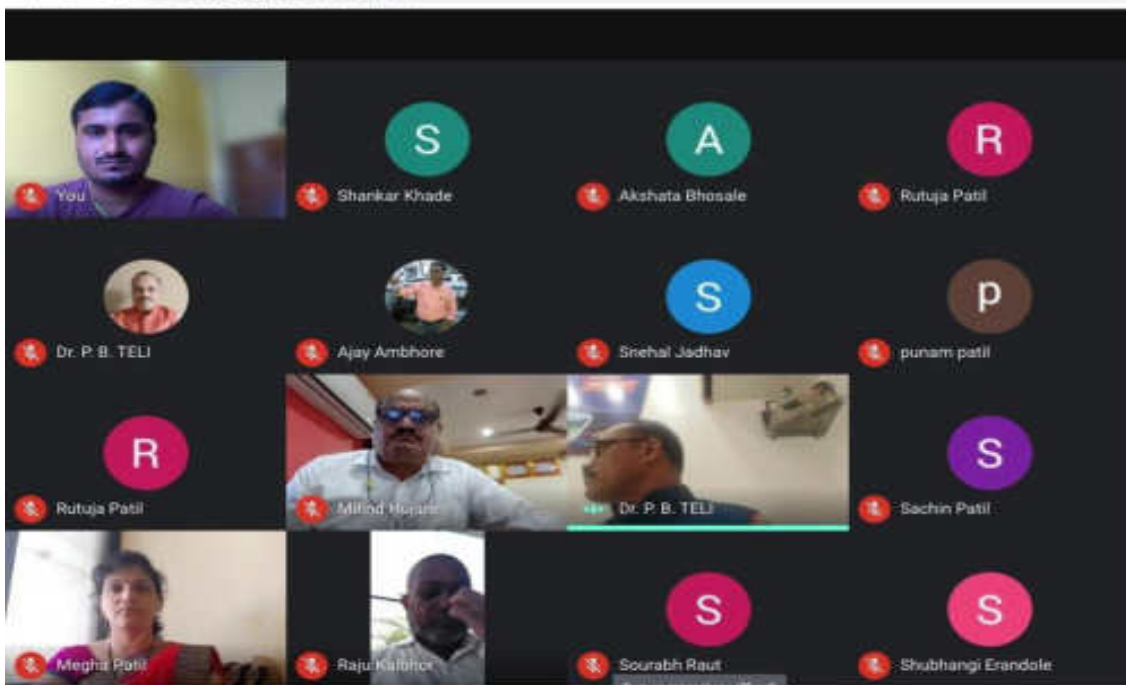

India: 10 lac miserable deaths – every year

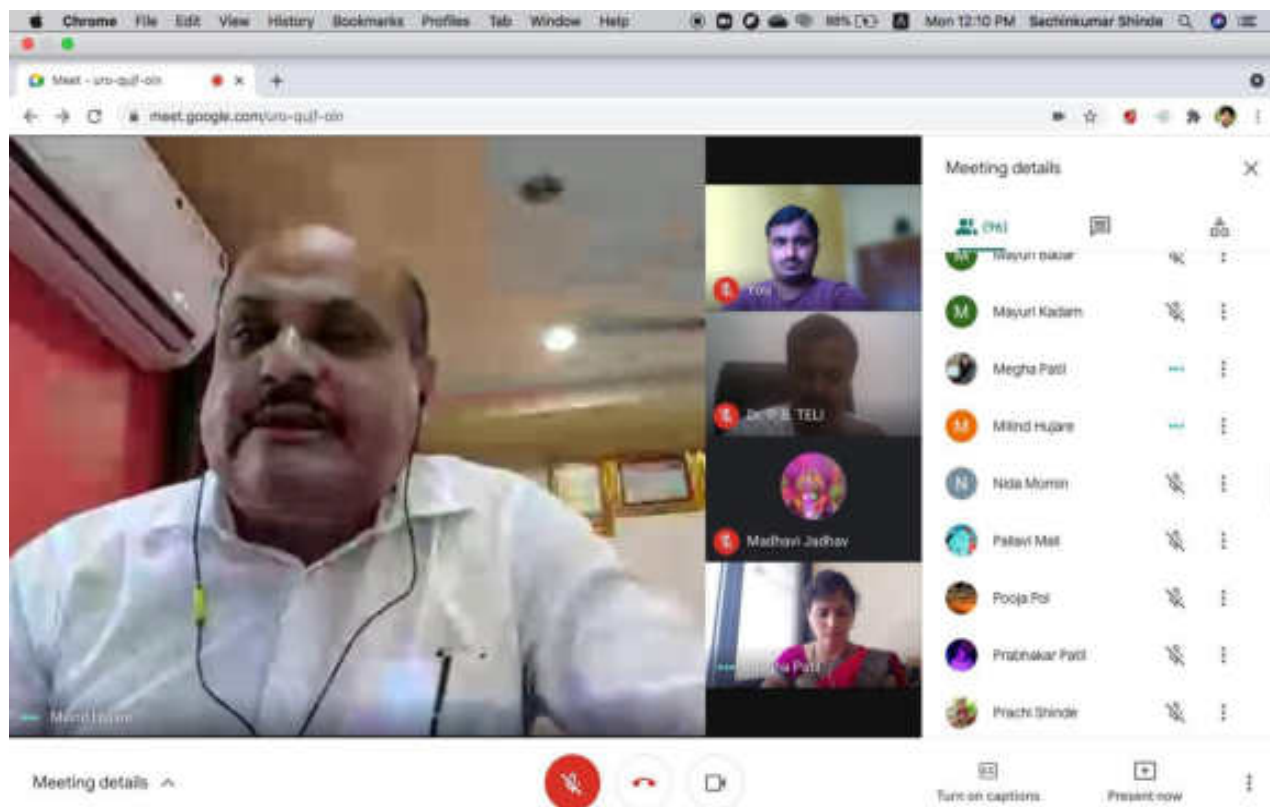

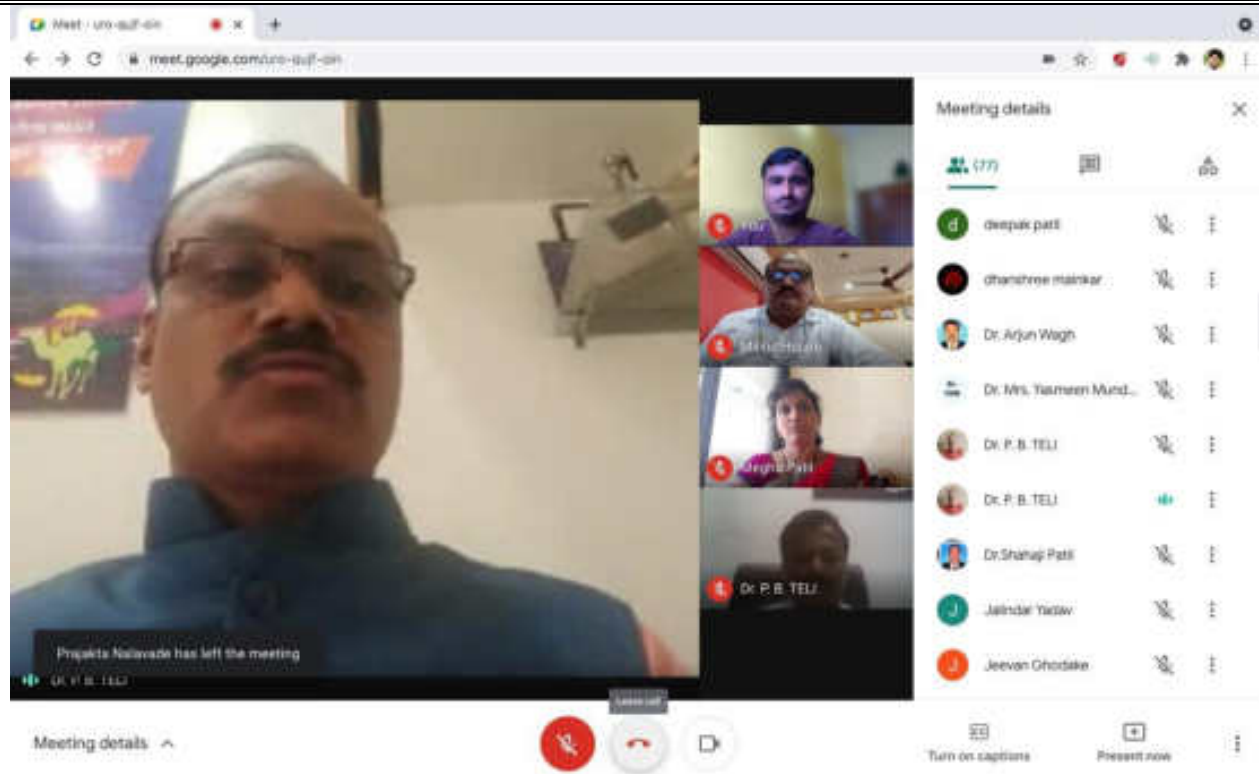

Webinar President Prin. (Dr.) Milind Hujare

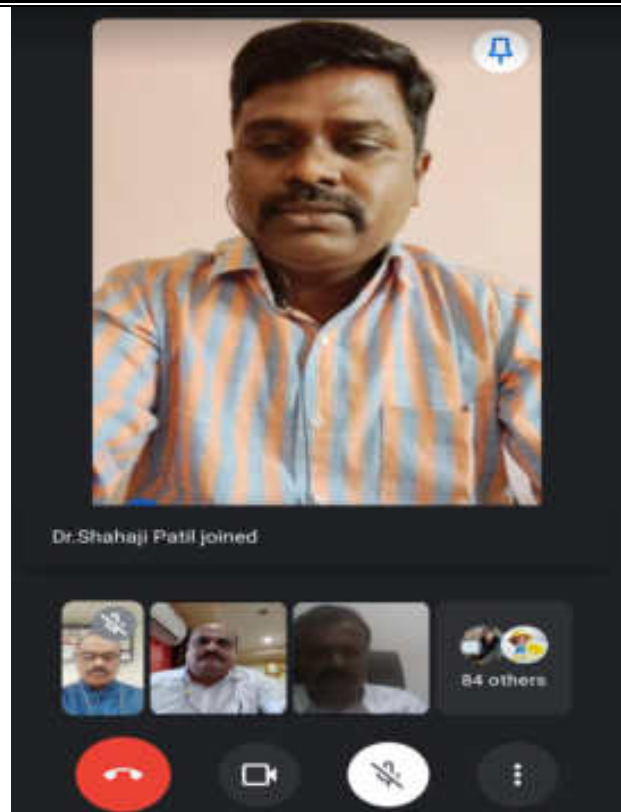

Webinar Coordinator Dr. Ajay Ambhore

Participants In Webinar

Presidential Speech By Prin. (Dr.) Milind S. Hujare

**Expression of Vote of Thanks By
Dr. Ajay Ambhore**

The “**World No Tobacco Day**” is observed on **May 31** every year to highlight the risk association with the use of tobacco. The annual campaign is an opportunity to raise awareness to help reduce use and protect the health of the people. The **World Health Organization (WHO)** promotes World No Tobacco Day each year to highlight the health risks of using tobacco and to encourage governments to put policies into action that help to reduce smoking and the use of the other tobacco products.

The theme for **World No Tobacco Day 2021** is “**Commit To Quit**”. The WHO said, **Quit tobacco to be a winner**. According to WHO “When the news came out that smokers were more likely to develop severe disease with **COVID-19** compared to non-smokers, it triggered millions of smokers, to want to quit tobacco. World No Tobacco Day focuses on spreading awareness about the dangers of using tobacco and how a number of health problems can be better tackled by doctors when one quits smoking.

The **Kolhapur Cancer Hospital** Trustee **Dr. Sandeep Patil** said that any addiction is dangerous to health and tobacco consumption causes cancer. He was speaking at the “**World No Tobacco Day**” function held at **P. D. V. P College, Tasgaon**. He further said that youth should stay away from addiction. Addiction lowers immunity of the human body. The people who were eating and smoking tobacco were died due to corona virus in comparable to the death ratio.

The WHO has proven that eating foods that contain tobacco ingredients can cause serious illness such as cancer, so young people should stay away from addiction and you should pay attention to regular **Exercise, Yoga, Pranayama** & your favorite sport. Eating and chewing **Gutkha, Mava** and **Tobacco** causes **oral cancer**. It is a matter of concern that the incidence of cancer among the young generation is on the rise in our country he said.

Speaking from the presidency of the program **Prin. (Dr.) Milind Hujare** explained how the young generation goes on addictive due to the company of friends so that young youth in the college should be to stay away from the addiction.

The program has been anchored and introduced by **Dr. Megha Patil**. The chief guests were introduced by **Dr. P. B. Teli** as an **Organizing secretary**. **Dr. Ajay Ambhore** expressed the vote of thanks. The Technical Department was successfully supervised by **Dr. Sachin Shinde**.

Dr. B. T. Kanase (Vice Principal), **Prof (Dr.) S. K. Khade** (Vice Principal) as well as NAAC Coordinator **Dr. Alka Inamdr**, Science Association Member **Dr. Arjun Kumbhar**, **Ajitkumar Pachore** (Staff Secretary), PG Coordinator **Dr. Shahaji Patil**, Senior Exam Head, **Jalindar Yadav**, Dr. Jeevan Ghodake (HOD-Physics), Prabhakar Patil (HOD-Mathematics), Office Superintendent **Mr. M. B. Kadam** and students from various departments were present online.
