It is important for voter turnout that local and state voting policies and procedures are public knowledge. Often, voters do not know where, when and how to vote. Student's awareness campaigns can encourage voter participation and make important information ubiquitous. So, our department decided organized campaigns in college.

Voter Registration Campaign was conducted from 20th June to 8th August, 2018 at the College. Under the campaign 1800 voter registration forms were distributed to the college students. Out of this, 1050 students were eligible for voter registration.
