Best Laboratory Safety Management

Students develop attitudes towards safety and acquire habits of assessing hazards and risks when they are young. Students come from diverse backgrounds and have various levels of preparation. Most of them have no previous hands on training in handling chemicals or equipment. Support for laboratory safety programs is the responsibility of college system administrators. College system administrators should appreciate the need for establishing safety and health instruction as a fundamental part of a science curriculum and should operate their college in as safe a manner as possible.

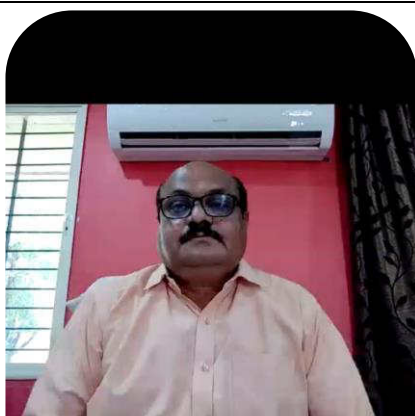

Based on these objectives, College Research and Innovation Committee in association with Shivaji University Lead College Scheme organize one day online/offline workshop on “Best Laboratory Safety Management” to develop awareness about laboratory safety in students for their safety when they work in the college laboratory.

For this workshop, we invite **Dr. G. S. Grover** as a resource person. Our college Principal **Dr. Milind Hujare** sir is in the president’s Chair. Dr. Grover was worked as a chief scientist & head of safety management in CSIR-NCL, Pune. He guides the student about lab safety. He gave very important information, how to work in the laboratory with the safety rules and information. He provides the information very easily and in a simple language to understand the student. The presentation of Dr. Grover is so effective that the students enjoy the whole session. He used different modes for presentation like slides, videos, and even demo to clarify the point. Overall Dr. Grover explains the laboratory safety rules to students to improve practical skills and avoid laboratory accidents.

In the presidential speech Principal, Dr. Milind Hujare sir gave information about our college. Especially, he concentrates on the science department and focuses on the criteria, events, and programs which are provided by the college administration to the students for their safety laboratory.

In conclusion, due to the initiation and motivation of our college principal Dr. Milind Hujare Sir and the support of Shivaji University Lead College Scheme, the College Research and Innovation Committee successfully organize the one day workshop on laboratory safety. **Mr. P. R. Khade, Coordinator, Lead College Scheme** also supports this event. Dr. P. B. Teli, Dr. S. K. Shinde and Dr. Haji Nadaf as a member of college research and innovation committee played an important role for organizing the workshop successfully.
