REPORT

This festive season, ensure that you have a completely eco-friendly Ganesh Chaturthi by going zero-plastic! Ganesh Chaturthi is one of the Indian festivals that is rooted in community and celebration, but that can mean that it can be amongst the largest pollutants for our environment if we don't celebrate mindfully. Ganesh immersion leads to a large amount of pollution in our water bodies and all the waste generated from the decoration also increases the amount of plastic in landfills and water bodies. Thankfully, across the country, people are recognising the importance of eco-friendly Ganesh idols and an eco-friendly celebration, so here are some reasons for why you should consider a zero-plastic and sustainable Ganesh Chaturthi too!

Eco-friendly Ganesh Festival program was successfully implemented under the guidance of Hon. Principal Dr. Milind S. Hujare. All the program officers Dr. Badame T.K., Dr. Sonawale A.G. and Dr. Teli P.B. and members of the National Service Scheme were present.
