WOMEN EMPOWERMENT CELL

REPORT ON

First Aid Demonstration and Guidance

Event	Training Workshop on First Aid Demonstration and Guidance
Date	07th December 2019
Venue	Room No. 28
Total Participants	Female: 89

The Women empowerment Cell of the College organized a programme of Training and Demonstration of First Aid for girl students on 07th December 2019 at 10.00 to 6.00 pm.

First aid is a combination of simple procedures and common sense.

The aims of first aid are.....

- **To preserve life:** Saving lives is the main aim of first aid.
- **To prevent further harm:** The person who has experienced the injury must be kept stable, and their condition must not deteriorate before medical services arrive. This may include moving the individual away from harm, applying first aid techniques, keeping them warm and dry, and applying pressure to wounds to stop any bleeding.
- **Promote recovery:** Taking steps to promote recovery may include applying a bandage to a wound.

Why first aid training is so important?

- **Increases safety:** The basis of first aid training is "prevention". It is always better to be safe than to be sorry. Knowledge of first aid promotes the sense of safety and well being amongst people, prompting them to be more alert and safe in the surroundings they dwell in.
- **Helps save lives:** If a person who is trained to give first aid administration happens to see any casualty in his vicinity, immediate action can be taken and lives be saved.
- **Helps relieve pain:** Some injuries require a very simple solution like applying ice pack or a quick rub. A ride to the emergency room is not necessary, at least not for some time.

- **Makes people more secure:** Knowing that you can save your own life when required, or that of the people you know or those in trauma during some emergency helps you relax more and be more secure.
- **Prevents the situation from becoming worse:** A trained person would know how to keep the situation from becoming bad to worse. They will provide temporary treatment which will keep the condition of the victim from deteriorating, till professional help arrives.

Chief Guest	Dr. Mrunalini Bhosale Miss. Aishwarya Bhosale
President	Principal Dr. Milind Hujare
Organizer	Dr. Alka Inamdr

Programme was introduced by Dr. Alka Inamdr, Chairperson of the Women Empowerment Cell and welcomed the Speaker of the function Dr. Mrunalini Bhosale, and her colleague Miss Aishwarya Wandare, President of the function Principal Dr. Milind Hujare.

Principal Dr. Hujare Sir in his presidential speech elaborated many issues of the first aid and its importance. He explained the knowledge of first aid which promotes a healthy, secure and a safer environment, and instills confidence amongst people, their families, their colleagues and associates. Basic first aid knowledge is very helpful in dealing with trauma situations. Not just the medical help they provide, but the confidence they exhibit is very helpful during casualties. Being trained to provide first aid is useful to oneself and society.

Dr. Mrunalini Bhosale has practically explained every aspect of first aid box, its necessity etc.

In her speech, Human bodies are susceptible to injuries, illnesses and trauma. We never know when any injury may happen to us or the people we love or those who are around us. Thus it is always good to have some amount of basic knowledge to take care of critical situations, to keep it from going from bad to worse or till the medical help arrives.

Administering first aid to victims in the event of accidents, mishaps and occurrences during office and school hours or in the case of some accident is encouraged. One must know the basics of administering first aid and this knowledge is gained by getting trained.

GLIMPSES OF THE EVENT.....

According to her the most common term referred to in first aid is ABC. This stands for airway, breathing, and circulation. A fourth step will appear in the emergency procedures for some facilities.

- **Airway:** Make sure the airway is clear. Choking, which results from the obstruction of airways, can be fatal.
- **Breathing:** Once the airways are confirmed to be clear, determine whether the person can breathe, and, if necessary and provide rescue breathing.
- **Circulation:** If the person involved in the emergency situation is not breathing, the first aider should go straight for chest compressions and rescue breathing. The chest compressions will promote circulation. This saves valuable time. In emergencies that are not life-threatening, the first aider needs to check the pulse.

- **Deadly bleeding or defibrillation:** Some organizations consider dressing severe wounds or applying defibrillation to the heart a separate fourth stage, while others include this as part of the circulation step.

Evaluating and maintaining ABC with a patient depends on the training and experience of a first aider. As soon as ABC has been secured, the first aider can then focus on any additional treatments.

It is important to use a primary survey to make sure the scene is clear of threats before stepping in to help:

The first aider then needs to carry out a secondary survey, checking for deformities, open wounds, medic alert tags, and swellings.

If the injured person is breathing safely, carry out a rapid whole-body check for the following:

- open wounds
- deformities
- medical alert tags advising of underlying conditions
- swellings

This is known as a secondary survey. As soon as this has been completed, place the individual in a recovery position. At this point, the first aider should call for an ambulance.

The programme was closed by the vote of thanks by Miss. Nikita Kadam.

Miss. Gauri Patil, Miss. Komal Ghotkar, Miss Nikita Pawar appreciated the programme and they gave their feed back. Miss. Kheradkar Madam from faculty appreciated the prograame.

मुलींनी हेल्पलाइन नंबरचा वापर करावा : डॉ. भोसले

तासगाव : येथील पीडीव्हीपी महाविद्यालयात आयोजित कार्यशाळेत बोलताना डॉ. मृणालिनी भोसले बाजूस प्राचार्य डॉ. मिलिंद हुजरे व इतर.

प्रतिनिधी

तासगाव

मुलींनी स्वतःच्या सुरक्षिततेची काळजी घ्यावी. आपल्या पर्समध्ये छोटी प्रथमोपचार पेटी ठेवावी. हेल्पलाइन नंबरचा वापर करावा, असे प्रतिपादन डॉ.मृणालिनी भोसले यांनी केले.

तासगावातील भूषण डॉ. वसंतरावदा पाटील महाविद्यालय, येथे महिला सबलीकरण समिती मार्फत आयोजित केलेल्या प्रथमोपचार प्रात्यक्षिकासह मार्गदर्शन एक दिवसीय कार्यशाळेत बोलत होत्या. यावेळी अध्यक्षस्थानी प्राचार्य डॉ. मिलिंद हुजरे हे होते.

यावेळी डॉ. भोसले यांनी प्रथमोपचार करताना कोणती खबरदारी घ्यावी?, अपघात झाला असेल तर काय करावे?, दवाखान्याशी संपर्क कसा करावा?, योग्य ती काळजी कशी घ्यावी.

चौकस बुद्धीचा वापर करून योग्य कसे निर्णय घ्यावेत?, प्रथमोपचार पेटीत काय असावे?, कसे असावे आणि कसे ठेवावे,

कोणत्या प्रसंगात प्रथमोपचार करू नयेत. याविषयी प्रात्यक्षिकासह अगदी अचूक मार्गदर्शन केले. यावेळी ऐश्वर्या वांडरे यांनी मुलींना प्रथमोपचार कसा घ्यावा याची कृती करून दाखवली व मुलींकडून करवून घेतली.

अध्यक्षस्थानावरून बोलताना प्राचार्य डॉ.मिलिंद हुजरे यांनी

प्रथमोपचाराचे महत्त्व सांगून

मुलींनी सुट्टे व स्वावलंबी होऊन

प्रतिकार करावा, असे सांगितले.

या कार्यक्रमाचे प्रास्ताविक प्रा.

डॉ. अलका इनामदार यांनी केले. तर आभार निकिता कदम हिने मानले.

यावेळी कार्यक्रमाचे सूत्रसंचालन प्रा.डॉ.मेघा पाटील यांनी केले. कार्यक्रमाला प्रा.डॉ.स्वाती जाधव, प्रा. एस.एम.खेराडकर, प्रा.आण्णासाहेब बागल व महाविद्यालयातील प्राध्यापक, विद्यार्थिनी मोठ्या संख्येने उपस्थित होते.
