| Date | 20/9/2017 |
| Students Participants | 479 |
| Venue | P.D.V.P.College Compus, Tasgaon, Dist. |
| | Sangli |
| Organizer | National Service Scheme |

Blood donation camp

Jointly organized by Padmabhushan Dr. VasantravadaPatil College, Tasgaon and Rotary Club Tasgaon

Chief Guest: Hon'ble Surendra Patil,

(President, Rotary Club, Tasgaon)

Day and Date:: Wednesday 20/9/2017

Venue: Library Building, Padma Bhushan Dr.

VasantravadaPatil College, Tasgaon

Blood donation is the act of voluntarily removing blood from an organ. Such blood is broken down by a biopharmaceutical process before being transfused into the patient's body, and whole blood or the same component of blood is injected into the patient's body. Blood banks are involved in the blood collection process. Most of the blood donors (volunteers) donate blood voluntarily and free of cost. In some countries, blood supply is limited, as donors donate blood only for relatives or friends. Many blood donors donate blood as a donation. But in countries where blood is allowed to be sold, blood donors get paid. Blood donation is given free time from work in some places. In case of extra bleeding due to accident, palsomia, anemia, leukemia, postpartum hemorrhage, surgery and other serious illnesses, if the patient does not receive blood on time, he is likely to be cheated. In such a case, the blood of one human being can save the life of another human being.

Because human blood is not produced in any factory and the blood of any other animal cannot be used for human consumption, blood donation is of paramount importance.

In the state of Maharashtra, about seven and a half lakh bottles of blood are required for patients every year. About 70 to 75% of this requirement is met by an alternative blood donor or a professional blood donor.

The human body contains four and a half to five liters of blood. At the time of blood donation only 300 ml. Blood is drawn. Blood levels return to normal in about 36 hours after each blood donation. Also, blood cells are restored in about 2 to 3 weeks. Blood donation does not cause any discomfort or injury. Blood can be kept safe in the refrigerator of the blood bank for 4-5 weeks.

Blood donation saves many lives every year. Blood donation in many major surgeries or in critical cases helps save the life of the patient. Also, blood donation plays an important role in saving the life of the baby and the mother during pregnancy.

Therefore, a blood donation camp was organized by the National Service Scheme Department of the College and Rotary Club Tasgaon on Wednesday 20/9/2017 from 10:00 am to 4:00 pm. The camp was inaugurated by Mr. SurendraPatil, President of Rotary Club, Tasgaon. The introductory speech was made by Prof. Dr. TatobaBadame. Speaking on the occasion, Dr. RR Kumbhar, Principal of the College welcomed all the members of Rotary and expressed his intention to jointly implement such activities in future in collaboration with the National Service Scheme Department of the College and Rotary Club Tasgaon.

The organization of this initiative is under the guidance of Dr. R. R. Kumbhar, Principal of the College. Dr. Tatoba Badame, Shri. Sainath Ghogre, Shri. A. R. Patil, Mrs. P. M. Khanuja, NSS Reprentative Miss. Harshali Jadhav, and Shri.. Jaideep Kamble.
