TRAINING PROGRAMME FOR STUDENTS

Horticultural techniques

Event	Training Programme for Students on Horticultural Techniques Seed Farm (AGRICULTURE NURSERY) SANGLI ROAD, TASGAON
Date	26 th February 2020
Total Participants	Total:192, Male:63 Female: 129

Organizer

Department of Botany

Horticulture is the science and art of the development, sustainable production, marketing and use of high-value, intensively cultivated food and ornamental plants.

Horticultural crops are diverse, including:

- Annual and perennial species,
- Fruits and vegetables,
- Decorative indoor plants and
- Landscape plants.

Horticulture also contributes to quality of life, and the beauty, sustainability and rehabilitation of our environment and the human condition.

Horticulture involves plant propagation and cultivation to improve plant growth, yields, quality, nutritional value, and resistance to insects, diseases, and environmental stresses. It also includes plant conservation, landscape restoration, soil management, landscape and garden design, construction and maintenance, and arboriculture. The word *horticulture* is modeled after agriculture; it derives from the Latin words *hortus* and *cultura*, which mean “garden” and “cultivation”, respectively. In contrast to agriculture, horticulture does not include large-scale crop production or animal husbandry. Additionally, horticulture focuses on the use of small plots with a wide variety of mixed crops while agriculture focuses on one large primary crop at a time.

Experts of the seed farm Shri. Pradeep Mali, Sachin Kadam and Shri. Gajanan Kamble had actually trained the students in the techniques of horticulture.

1. Horticultural equipment and its uses.
2. Selection of stock and scion for the horticulture techniques.

3. Types of grafting: Whip Grafting, Tongue Grafting and its benefits for fruit plants like Mango, Sapota (Chiku) and Guava fruits.
4. Budding and its types: T Budding and Patch budding.
5. Layering and its types: Simple layering and Air layering.
6. Hardening of that plants, its duration.
7. Plantation and transplantation
