She has elaborated.....

Courage is a personality trait that everyone possesses but it sometimes falters because of bad experiences or memories. Having courage is necessary to succeed in many situations in life from meeting the opposite sex to doing your job. But by identifying the source of any lack of courage and actively changing your behaviors, you can build confidence in any aspect of your life.

- Identifying Your Fears
- Determine your specific fears
- Figure out the cause of your fears
- Recognize your courage
- Develop a concrete plan to build your courage
- Developing Behaviours that Build Courage
- Script situations that elicit your fears

- Frame what you fear in simpler terms
- Avoid comparing yourself to others
- Embrace the positive and avoid the negative.
