Whenever a baby is born, celebrations follow. There are endless feasts and parties to welcome the beautiful new life that is formed. There is happiness, enjoyment, exhilaration, and tears of joy. However, in some places, this kind of an environment persists only if it's a male child, that is, a son.

So...the Women Empowerment Cell has decided to visit hospitals with their prior information to welcome newborn girl child, i. e. **Angel's Welcome Programme** with mother and her relatives with the Rose flower and sweet for her parent and relatives.

Principal Dr. Milind Hujare, Dr. Alka Inamdr, Co-ordinator, Women Empowerment Cell, Prof. (Dr.) Suresh Patil, NAAC Co-ordinator of the College, Dr. Vilas Pawr, Vice Principal, Shri Vijay Jadhav and 15 Girl students of the College have visited 3 Hospitals in Tasgaon. Dr. Prashant Patil, Dr. Anjali Patil and Dr. Suresh Lugade are the Gynecologists in Tasgaon.

Parents are very happy with us and enjoyed the programme very nicely. We succeed to focus the role of girl in livelihood.

Relatives along with Angel's mother appreciated this programme and they have explained their views and also thank us.....

We explained the important points like.....

1) If it's a girl child, then disappointment clouds over. It is surprising enough that this kind of discrimination still preserves in many parts of the world. The girl child is not given enough worth, for it is believed that it is the son who is going to take full responsibility of the family and carry forward the legacy. However, times have changed, and women have proved their equality and value. Sadly there are some people who have not come to terms with this revolution.

2) It is a well-known fact that a girl child is more obedient, honest and sincere than a boy child. Most of the times, girls don't take things for granted. It is easier to handle them rather than boys. Boys usually get easily distracted, with all

the sports and technology! Girls appear to be more meticulous and have a stronger sense of responsibility towards their family and their own aspirations.

3) The perfect example would be our mother. Our mother teaches us everything from the very beginning. Similarly, women are perfect mentors, who can guide you throughout your life. Wisdom comes naturally to them. A girl/woman has to face numerous difficulties in her lifetime, which helps her gain experience, makes her prudent and teaches her many of the important lessons quite early in her life.

4) A girl child will always think twice before taking a step and keep all the aspects in mind. She will think about the repercussions and how a particular decision might affect the people surrounding her.

5) A woman is the glue that binds the entire family together. It is truly said that a family is incomplete without a girl. A girl brings light and contentment in the family.

6) A girl child is a pillar of strength for her family and provides all kinds of support, be it moral, emotional or financial. She supports all her loved ones with all her might. Normally, it is observed that women are able to make rational decisions, which are helpful in the long run.

7) Nothing is achievable without success, and there are thousands of success stories among women. Girls are equally capable to reaching new heights and fulfilling their dreams.

8) The 21<sup>st</sup> century woman is an all-rounder. Whatever field she chooses for herself she will make sure she outshines in it. Not just professionally, she shines in all of her endeavours, be it hobbies or other personal tasks. She is diligent and adds a magic touch to whatever she decides to pursue.

9) From being a wife/mother/daughter/sister to a lawyer/CEO/architect/manager and what not, a girl manages to excel in every

aspect of her life. She handles everything with grace and maturity. Multitasking is something which comes naturally to them!
