The Principal, Padmabbookan Dr. Visantrandada Patil Mahavidralava, Taugaum, Dist-Stangil, 416312

Subject: Request for Permission for Field Visit at Tatyashri Agretock Cold Storage, Kaythe-Ekand, Tangaon ...

Respected 5ig.

I say writing to respect your permission for a field visit at Taiyashri Agranech Cold Storage, Kaviko-Ekand, Tasguon in part of our MOU. This visit will provide valuable practical knowledge altered acid storage management and the scientific principles belond. various cold storage immuneers. The visit will be officiational and beneficial in othercing our understanding of real-world applications related to our studies.

We assure you that we will follow all tadey protocols and adhere to the sollegs's guidelines. Kindly gram as permission to proceed with the necessary arrangements for this white.

Day and Date: Friday, March 7th, 2825

Time : D.80 AM

We limit forward to your approval.

Yours Fuithfully.

Prof. (Dec J. S. Ghedshe Hend.

Usake the active Materialadium of Hisdonian dry (MAL), a departmental reduced wish too. conducted to Tatyashiri Agrorach Cold Storage, Taigage, by the Disparisions of Physics under the gridance of Prof.(Dr.) Jorean S. Ghodafor, Head of the Department, and the overall leadership of Dr. Millard S. Hujare, Principal of the college. The printery size was to provide students with bands are experience to modifies cold storage facilities and good harvors management practices. During the visit, steakerts inserted about until chart legistics, recognition and harmostyremaintant, and the operational flow involved in hundling periodalto agricultural products. The Suctive outfl prevailed a detailed walkrive-up of the surrage groups, quality scarred enquisities, and the exportance of mannering optimal environmental conditions for different types of pendium. This visit bridged the gap between theoretical knowledge and practical application, graing enalths a clear understanding of how account to proceptus are implemented in the approbuild industry. The surregement approximat the initiative and welcomed fature made not indiamentons.

Objectives

- To provide greatfield proposes to cold storage and punk-hat weist tipyfresidenty.
- To enablestical industrial against our of magnitudes: and beautiful sireed.
- To live auditors learning with real-time agrebalancy remodules.
- La accounting Mod-locard collaboration for testings. and towards.

Challengers :

- Realizers gained propried insights two cold chairs bayydin end stienge.
- Understand the importance of position name? support to decrease
- > Bridgel classrom tracking with industrial
- Devoid atomics for fixure instruction and collaborative projects.

Evidence: In Unid Sections

Detail Report

Introduction:

This report presents a comprehensive study of the working process of Tatyashri Agrotech Cold Storage, located in Tangaon, Treyeshri Agrotech Cold Storage plays a vital role in the agricultural sector by providing storage facilities for peristable produce, thereby helping farmers extend the shelf life of their harvests and maintain quality. Preservation of food by proper storage assumes greater importance in a country like India, where there is a substantial production of a variety of peristable foods like fruits. Amongst the various methods of preserving food products, refrigeration is the most important one. Cold storage conditions for food products differ from product to product, but certain basic facts are true for all fruits, vegetables and other fruit products. In the case of fruits and vegetables particularly.

Objective

- F. To give practical exposure to refrigeration system which is used in cold storage.
- To study different unit in cold storage such as compressor unit, condenser unit, cold unit.
- The primary objective of this study is to understand the working process of Tatyashri Agrotech Cold Storage. The study aims to provide insights into the operational procedures, technological infrastructure, quality control measures, and overall efficiency of cold storage operations.
- Visits to the cold storage facility were arranged to observe fleshand the various stages involved in storage and preservation.

Working Process:

The working process of Tatyashri Agrotech Cold Storage involves several key stages, each designed to ensure the effective storage and preservation of perishable agricultural produce. The main stages include:

- 1.Receiving and Inspection: Upon arrival at the cold storage facility, agricultural produce is received and inspected for quality, ripeness, and any signs of damage or decay. Trained personnel carefully assess the condition of the produce to determine its suimbility for storage.
- Pre-cooling: In some cases, particularly with delicate fruits and vegetables, precooling may be successary to lower the temperature of the produce quickly and remove field heat. Pre-cooling helps prevent moisture loss and extends the shelf life of the produce during storage.
- 3. Storage: The produce is then carefully sorted and stored in designated areas within the cold storage facility. Temperature and humidity levels are closely monitored and controlled to create optimal storage conditions for different types of produce. Cold attange rooms are equipped with refrigeration units and temperature control systems to maintain the desired climate.
- 4. Monitoring and Maintenance: Throughout the storage period, continuous monitoring of temperature, humidity, and other environmental factors is conducted to ensure that storage conditions remain optimal. Any deviations from the desired parameters are promptly addressed to prevent speciage or deterioration of the produce. Boutine maintenance of refrigeration agreement and storage facilities is also carried out to ensure their proper functioning.
- 5. Quality Control: Regular quality checks are performed on stored profile to busies

its condition and detect any signs of deterioration. Sumplies may be taken for analysis to determine factors such as moisture content, sugar levels, and overall quality. Any produce found to be unsuitable for storage is removed to prevent contamination of other stored items.

6. Dispatch and Distribution: When farmers or distributors request the release of stored produce, it is retrieved from the cold storage facility and prepared for dispatch. Proper handling procedures are followed to minimize damage during leading and transportation. Produce is dispatched according to customer orders and delivery schedules.

Types of Cold Storages

Cold stores may be identified by their size into the following categories:

a) Small Cold Stores

They are typically walk-in cold stores, working in different temperature ranges.

They are generally used in botch, super markets, food malls etc. for storage of

different items and are closest to the consumer, almost like window shops (for food items).

b) Medium Sized Cold Stores

Medium capacity cold storm range from 50 to 500 MT capacity with 1 or 2 chambers. They may be located at the farms (i.e producing area), market places (i.e consuming area), process / precooling plants, airports esc and may be used for storage of fresh foods as well as for processed foods.

c) Large Sized Cold Stores

These are bulk or multipurpose type and the espacition, generally, range from 1000 MT to 25000 MT. The bulk stores are, usually, located in the producing areas and also near market places and generally, have fewer chambers of large capacities. The multipurpose stores are mostly located near consuming centres. They have a manber of chambers usually ranging from 4 to 50. Bulk cold stores generally aftern these

quantities of fewer items whereas multipurpose cold stores are used for storing a variety of items requiring different storage conditions.

Technological Infrastructure:

Tatyashri Agretech Cold Storage is equipped with modern technological infrastructure to support its operations effectively. This includes:

Refrigeration Systems: High-performance refrigeration units and cooling systems are installed to maintain the desired temperature levels within cold storage rooms.

Temperature and Humidity Control: Automated control systems monitor and regulate temperature and humidity levels to create optimal storage conditions for different types of produce.

Data Logging and Monitoring: Sensors and data logging devices are used to continuously monitor environmental parameters such as temperature, humidity, and air quality. This data is logged and analyzed to ensure compliance with storage standards and identify any issues requiring attention.

Buckup Power Supply: Backup power generators are installed to ensure uninterrupted operation of refrigeration systems and critical equipment, particularly during power outages or emergencies.

Conclusion:

The mady of the working process of Tatyashri Agrotech Cold Storage provides valuable insights into the systematic approach and advanced technology employed in the storage and preservation of perishable agricultural produce. By advering to strict quality control measures and leveraging modern cold storage techniques. Tatyashri Agrotech Cold Storage plays a crucial role in supporting farmers and ensuring the availability of fresh produce in the market.

This report underscores the importance of cold storage facilities in cohancing the value chain of agricultural produce and contributing to food security and sustainability in Tasgoon and the surrounding region. Thus getting knowledge about stirll fixed units and their functions. As well as students have carned information about 500 fig. 4 stain.

NOTICE

The Department of Physics, in collaboration with IQAC, is going to organize a webinar titled "Recent Trends in Nanoscience" on 6th March 2025 at 01:00 PM through Google Meet, under the international MoU with Gaebon University, South Korea.

The session will be conducted by Dr. Pranav K. Katkar, Assistant Professor at Gachon University, South Korea. Dr. Katkar will share valuable insights into the current advancements in nanoscience, focusing on:

- Emerging trends like nanoelectronics and nano-optics
- Applications in drug delivery, energy storage, and environmental cleanup
- Key challenges including toxicity, scalability, and ethical implications of nanomaterials

So all the B.Sc Students are encouraged to participate in this insightful and internationally oriented academic session.

Date: 00/03/2025 Time: 01:00 PM

Platform; Google MentLink will be shared on your Whanapp Group) Speaker; Dr. Pranay K. Karker, Gachon University, Smith Korea.

Involvation Letter

The Dr. Pranay K. Kathar, Assessment Professor; Department of Chemical & Biological Statiery Engineering. Callege of Semiconductor, Gachan University, South Koren.

Subject: Invitation at a iqualar for Waltimar on "Recent Trends in Namoucloster".

Respected Six.

On behalf of the Department of Physics & IQAC: Padmatriaschus Dr. Vasserssodada Part Mahavidyolaya, Targaon. We would like to extend a warm invitation to you to be the guest. speaker for our epidening website total "Recent Treath in Nationieses" under the International Memorandum of Understanding (MoCl) with Guitum University, South Kores, and will be on 86th March 2025 at 61:00 PM via the Google Meet gridform.

We are horseed to invite you to speak on your expertise in Transactions and its emerging sunds. We insity appreciate your support in sharing your knowledge, particularly on the suggests chaffenges, and energing areas such as more-optics; energy storage devices, and environmental cleanup techniques, will be highly beneficial to not students, faculty, and auticipants.

Looking forward to your confirmation and haping for a truitful collamoration.

With warm regards.

Thursking Letter

To. Dr. Pranav K. Kathur, Assistant Professor. Department of Chemical & Biological Buttery Engineering. College of Semiconductor, Guchan University. South Korea.

Subject: Letter of Approxiation...

Responsed Sir,

On behalf of the Department of Physics & IQAC, We would like to express our sleepes gratitude to you for graciously accepting our levitation and for being the extensive gases: appealed at the superior on "Become Treath in Nanonclower," held on 96% March 2025 at 60:00PML

Your presentation on the challenger and emerging needs to nearescipton, including the flastituating insights on name-option, everyly storage, and any increased pleasup, was truly exhigh sering. We are honoured to have the opportunity to collaborate with you, and we hope to continue this must be performing in the fature.

Oroce again, thank you for your lives and officer, We doubly value your expertise and hope to stay corrected for future events.

With norm regards.

the Millard S. Hujare

♦ Brochurs:-

Objectives of the Withinary-

- To bridge the gap between research trends in minotechnology and its practical applications.
- To familiarize & stimulate curiosity among the students with emerging nanomaterials and their applications in various fields.
- To enhance the academic and professional collaboration between the Department of Physics and Gachon University, South Koren.
- To provide an overview of the latest advancements in nunoscience, including movel applications and energing research trends.
- To raise awareness about the ethical, environmental, and health-related implications of nanomaterials and their impact on society.
- To inspire students and researchers to impage in innovative research in the field of nanoscience and contribute to solving current global challenges.

General Information of the Programmet-

The Department of Physics & IQAC organized a webinar titled "Recent Trends in Nanoscience" under the International Memorandum of Understanding (MeU) with Gachon University, South Korea. The webinar was held on 06/03/2025 at 01:00 PM and was conducted via the Google Mort platform. The guest speaker for the event was Dr. Primay K. Katkar, Assistant Professor at Gueben University, South Korea.

The session started with introduction of the speaker Dr. P. K. Kattur Bir by Ms Megha D. Pawar stam. The session started with the recent advancements and emerging trends in Nanoscience, including nanomaterials and their Synthesis. The speaker Dr. P. K. Kattur Sir explored various applications of nanoscience in different sectors such as medicine, electronics, energy, and environmental sustainability.

For instance, how nanotechnology is used in drug delivery systems, energy storage devices, and environmental clearup techniques. Also Dr. Katkar highlighted the ongoing challenges in the field, such as toxicity concerns, scalability, and ethical considerations regarding nanomaterials. He also presented posential future directions and emerging trends like nanoelectronies, nano-optics, and nanophotonics.

There was question answer discussion carried out with the students on how nanomaterials like carbon nanotubes, quantum dots, and graphene are synthesized and their unique properties at the massociale.

At the end, Mr. Abbiject Shinde Sir concluded the webinar by giving a vote of thanks by emphasising the importance of academic exchange programs and international collaborations, like the MoU with Girchon University, which enhances research in Nanoscience.

The total number of beneficiaries for this webinar, was 42 students from B.Sc.

Clottomes of the Wobigar)-

- Einhanced Duderstanding: Students gained a deeper understanding of the recent trends. and advancements in nanoscience and how they impact various sectors like healthcare, electronics, and environmental management.
 - Research Exposure: The session exposed students to the latest research trends in the field. of tomoscience and nanotechnology, encouraging them to explore these topics further for their academic growth.
 - Increased Academic Collaboration: The webinar encouraged further academic collaboration between the Department of Physics and international institutions, exhancing the scope for famer research partnerships and student exchanges.
- Motivation for Further Learning: The session motivated students to pursue higher studies and research in Nanoscience and Nanotechnology, opening opportunities for intendisciplinary studies and exploration of new frontiers in science and technology.
 - Networking Opportunities: The webinar provided students with an opportunity to interact with an eminent scientist from Gachon University, fostering global academic connections.

Student faculty exchange programme Outcome

(12" November 2024 to 26" November 2025)

- I. Strengthened Research Methodology Understanding
- Students gained a clear understanding of research methodologies and their applications.
- They get abled to formulate hypotheses, design experiments, and analyze research problems effectively.
- 2. Improved Literature Review and Ethical Research Practices
- Students got able to conduct a systematic literature review using platforms like Google Scholar, Scopus, and ResearchGate.
- Students developed ethical research habits, including plagarism avoidance and proper citation using tools like Mendeley and Zotero.
- 3. Hands-on Experience with Advanced Research Techniques
- Exposured to spectroscopic (UV-Vis, IR, NMR, Mass Spectroscopy) and chromatographic techniques (TLC, HPLC, GC).
- Students got Practical experience in electrochemical methods like potentiometric titrations and redox potential determination.
- 4. Enhanced Data Analysis and Computational Research Skills

Proficiency in computational tools (Gaussian, Chembran, Origin) for molecular modeling and data analysis.

Strong statistical analysis skills to interpret experimental results and validate findings.

- 6. Awareness and Implementation of Green Chemistry Practices
- Participants got adopt sustainable and eco-friendly lab practices.
- They got develop waste management strategies for research laboratories.
- 7. Development of Scientific Writing and Presentation Skills
- Participants learned to write structured research papers, prepare patents, and select appropriate journals.
- They developed strong scientific communication skills, including poster and PowerPoint presentations.
- 8. Increased Confidence in Research and Collaboration
- Improved critical thinking, problem-solving, and teamwork through group research projects.
- Strengthened student-faculty collaboration, fostering an interdisciplinary research culture.
- 9. Carver Advancement and Research Opportunities
- Students encouraged to pursue higher education (M.Sc., Ph.D.) and researchbased careers.
- Identification of funding opportunities, industry partnerships, and research grants.
- 10. Institutional Growth and Recognition
- Enhanced institutional reputation through research publications.
- Formation of student-faculty research groups for continuous innovation.

Student faculty exchange programme

Summary of the Student Faculty Exchange Program on Research

(12" November 2024 to 26" November 2025)

Student-faculty Exchange Program on research with a practical approach should cover a range of essential research topics, focusing on hands-on experiences, experimental techniques, data analysis, and scientific communication. Selow is a 15-day schedule with discussed topics:

Day 1: Introduction to Research Methodology

- Basics of scientific research
- Types of research (experimental, computational, theoretical)
- Identifying research problems and formulating hypotheses

Day 2: Literature Review and Research Ethics.

- How to search for research papers (Google Scholar, Scopus, ResearchGate)
- Eltation and referencing tools (Mendeley, Zotero).
- Research integrity and ethical considerations

Day 3: Experimental Design and Data Collection

- Planning and designing appariments.
- Sampling techniques
- Data recording and documentation

Day 4: Holiday

Day 5: Spectroscopic and Analytical Techniques in Research

- LIV Vis. IR. NMR, and Main Spectroscopy
- Chromatographic techniques (TLC, HPLC, GIC)
- Hands-on experiments using available instruments.

Doy & Holiday

Day 7: Computational Chemistry and Data Analysis

- Basics of computational tools (Gaussian, Chembrase Origin)
- Statistical methods in research
- Interpretation of research data

Day B: Green Chemistry and Sustainable Research Practices

Principles of green chemistry

- Eco-friendly synthesis methods
- Weste management in nesearch laboratories

Day 9: Writing Research Papers

- Structure of a research paper (Abstract, Introduction, Methods, Results, Discussion)
- Impact factor and journal selection

Day 10: Electrochemical and Potentiometric Techniques.

- · Potentiometric titrations
- Determination of redox potentials
- Conductometric and polarographic studies

Day 11: Nanotechnology and Material Science Research.

- Synthesis of rapoparticles
- Characterization techniques (XXX), SEM, TEM!
- Applications of nanometerials

Day 12: Research Presentation Group Discussion

- Preparing scientific presentations (Posters and PowerPoint)
- Presentation of individual/group research ideas
- Feedback and discussion on future research opportunities

Day 13: Holiday

Day 14: Rynnarch Presentation

Day 15: Examination

> Sult: Appreciation Letter as chief guest for one day workshop on "Opportunities of Entrepreneurship in Chemistry" for UG & PG students.

Respected Six.

We are very much thuskful for accepting our invitation and subarble emrephenouship carrier guidance in chemistry as a chief guest for the UG/PG students, held im Friday, 28th February 2025. Your pharmacourical & industrial placement information is apontoseous and valuable to all students. It was a great pleasure to best you at our college as the chief guest.

We hope that this kindness and cooperation will remain in the future.

Thanking You,

Years Faithfully,

(Dr. Millind S. Hujure)

Franciscolar Dr. Victoricolar Past Materidysteys, Temper, (Songly

Mr. Preshant B. Diwan
(Director)

Assura Pharma Training Institute, Sangli,

Total Experience in Pharma industry: 20 years.

Academics: - M Sc. (Analytical Chemistry): - From Pune University, Pune

Summary:

I had reach experience in all Quality Control activities, Technology Transfer & Analytical Method Validation of New products. I had leaded the team of 75 persons at Wockhardt Ltd. Astrungsbad. Strongly involved & faced many regulatory audits like WHO, USFDA, TGA, MCA, MCC, etc. & even good conversation with the auditors. Certified in the training program conducted on Global eGMP USA 21 CFR 210, 211, EU Directives Vol.4 Eudralex, Corporate and Individual Responsibility and Liability for GMP compliance as well as also on Data Integrity, 21 CFR Part 11 and Good Documentation Practices conducted by Lachmun Consultants.

Work Experience:

- WOCKHARDT LTD, Aurangabad as Sr. Research Scientist from May 2009 to March 2018.
- ZYDUS CADILA HEALTHCARE LTD. Ahmadahad as a "Research Scientist" From Jan 2007 to May 2009.
- TORRENT PHARMA LTD. Ahmadabad as an "Assistant Manager" from Sep 2005 to Jun 2007.
 - AUROBINDO PHARMA LTD. Bachupully, Hyderabad as "Sr. Executive "from May 2004 to September 2005.
 - CIPLA LTD, Kurkumbh, Pune. as a "Quality Control Officer" from Aug. 2000 to April 2004.
 - NATIONAL CHEMICAL LABORATORY, Pune as "Project Assistant" from year 1998 to 2000.

About institute:

- Now we have an official partner with the Central Government LSSSDC Sector for up-skilling, Re-skilling & Assessment of working professionals in the Life Science Sector of NSDC & Skill India.
- Assura Pharma Training Institute was established in 2018 at Sangli. To date more than 1000+ Chemistry as well as B.Pharm students placed in various pharma industries from our institute.
 - Institute maintained 100% job assistance through training and their placement cell. We are having appreciation from near about 200+ pharma industry like Cipla, Unichem, Aurbindo, Lupin, Emcury, etc.
 - 4. We are having sophisticated instruments like HPLC, UV, IR, KF, etc to develop practical skills for students. These are currently used in the pharma industry. We are strongly preparing students for an interview and arranging their interviews at different locations.
 - We have successfully conducted USV LTD & ZYDUS CADILA these two reputed companies Campus interviews for our students at our institute.
 - This training is very helpful to students as well as to college for NAAC at college-industry / placement consultant collaboration.
- We have collaboration with 48+ colleges for activities like projects, training, placement & other curver-oriented support to their students.
- In NAAC criteria, workshops conducted for career perspective will impact on students & collaboration with us like 'ASSURA' institute gets more placements & admissions to the colleges, which effect on value addition in NAAC score.

Thunks & Regards,

Mr.Prashunt Disean (Director) Assura Pharma Training Institute, Saugli. "Disseronation of Education through Knowledge, Science and Culture" -Stiffshannssharehi Dr. Bagagi Salunkhe Shri Swami Vivekanand Shikshun Sanitha Kolhapur's

DEPARTMENT OF CHEMISTRY

(Academic Year 2024-25)

One Day Workshop for UG & PG Students on

"OPPORTUNITIES OF ENTREPRENEURSHIP IN CHEMISTRY

Organized by College Research Committee & IQAC in collaboration with MoU Partner Assura Pharma Training Institute Sangli

Event Workshop on Entrepreneurship

28th February 2025 Date

Smart Classroom (101) Venue.

Department of Chemistry, College Research · Organizing Committee & IQAC with MoU Partner Assura Department : Pharma Training Institute, Sangli.

Total Male Feenale Student 120 46 74 Participants | 22 88 Faculty 14 147 54 MH.

The Department of Chemistry, in association with the College Research. Committee and IQAC, organized a one-day workshop an "Opportunities of Entrepreneurship in Chemistry" on 28th February 2025. The event was held at collaboration with Assura Pharma Training Institute, Sangli a proud MeU partner of P.D.V.F. College, Targure.

The primary aim of the workshop was to intil an entroprometrial spirit among undergraduate and postgraduate Chemistry students. The workshop intended to bridge the gap between scarlomic fearting and practical industrial application, introducing students to the wide range of entreprometrial opportunities within the field of Chemistry such as pharmocouricals, green technologies, specially chemicals, and environmental solutions. The event witnessed active participation from UG and PG Chemistry students, faculty members, and invited dignituries from the chemical industry.

OBJECTIVES

- To create awareness among UG and PG Chemistry students regarding entrapreneurship opportunities in Chemistry.
- Yo promote an entraprenousal mindset and innovative thicking.
- To create awareness about the vast entrepreneurality opportunities available as the field of Chemistry.
- To encourage Chemistry students to explore innovation-driven career paths.
- To provide insights into the process of starting Chemistry-based enterprises.
- To inform students about government schemes, start-up support, and funding opportunities available for immeratures.
- To foster collaboration between academia and industry for research-based startigts.
- To highlight successful case studies and experiences of entrepreneurs from the Chemistry sector.
- To highlight government support schemes and incubation facilities for start-ups.

Welcome & Inauguration

The program began with a traditional lighting of the lamp extensiony followed: by Sunnfra Vandami. Dr. Sochin K., Shinde Chairman, College Research Committee. welcomed all the dignituries, resource persons, faculty, and students. He emphasized the aim of the workshop and the importance of fontering an entrepreneurial mindset among Clemestry students. Chief Geest's Mr. Prachast B. Diwas Director, Assura-Phorms Training Institute, Sangli shared his own empreymental journey, encouraging students to criticale entreprenauship as a viable and exciting cureer option. He emphasized the importance of taking risks, inservation, and continuous learning in today's dynamic chemical industry landscape. Mr. Diwan or elaborated on the vast apportunities available in the chemical, pharmaceurical, and environmental industries. She explained the critical role of Chemistry graduates in developing sentimable technologies and start-ups. Dr. K. A. Undale Head, Department of Chemistry presidential addressed the gathering and highlighted the growing reference of erorepreneurship in the Chemistry sector. The inauguration concluded with a firmal yote of flunks by Dr. D. B. Gunjul expressing gratitude to the MoU partner Assura-Plarma Training Institute, goests, management, and students.

OUTCOMES

- Awareness Generation: Students gained insight into various enterpreneural opportunities in pharmaceuricula, green obernistry, counsties, agrochemicula, and himothrology.
- Skill Development: Participants learned about business plan preparation, regulatory compliance, murket research, and financial planning.
- Industry Linkages: Strengthened the partnership between P.D.V.P. College and Assers Pharms Training Institute, leading to future internship and collaborative opportunities.
- Student Metivation: Many students expressed strong interest in developing.
 Chemistry-based start-up ideas and participating in innovation contests.
- Future Collaboration: The event laid the foundation for future workshops, internalsips, and collaborations between P.D.V.P. College and Assura Phorma Training Institute.
- Feedback: The feedback received from students indicated a high level of satisfaction and domand for similar workshops and entrepronounal training programs in the fature.
- Certification: Participation conflicates were distributed to all attendees, acknowledging their engagement and fearning.

CERTIFICATE

SUMMARY

The workshop automoted with an imageral session presided over by the Principal of P.D.V.P. College, who emphasized the importance of entrepreneurship for Chemistry students. This was followed by a keynote address by experts from Assura Pharma Training Institute who elaborated on how Chemistry-based inservations are vital to sextors like pharmaceuticals, countries, agreehemicals, environmental management, and materials science.

Various sessions throughout the day covered topics such as:

- Identifying entrepreneurial opportunities in chemical industries.
- Steps for starting a Chemistry-related business.
- Regulatory and quality control aspects in chemical enterprises.
- Challenges and rewards of entrepreneurship in Chemistry.
- Funding and support achieves from government and private sectors.

Interactive Q&A sessions allowed students to clarify their doubts and receive personalized advice. The event concluded with a vete of thunks, appreciating the efform of improvers, speakers, and inthusiastic participation of insidents.

The workshop was successful in igniting a spark among the students sowards entrepreneurship and reinferced the Department's commitment to producing not just graduates, but intervators and leaders in the field of Chemistry.

Dear Sir,

We are delighted to reform you that, we have arranged On Jab Training (OJT) for M. Sc. Part-I Chemistry Stadems from 63° March 2025 to 15° March 2025. The training is organized by PG Department of Chemistry in cellaboration with Assura Phiema Training Institute, Sangli.

We hope you would be able to fit this event in your busy schedule. The participants and organizers will benefit a lot from your expertise.

It's our pleasure to invite you fire the workshop as a resource person. We will be honoured if you accept the invitation.

With best regards,

Yours frichfelly.

Umbrella Memorandum of Understanding

Memorandum of Understanding

Between

PADMABHUSHAN BR. VASANTHAODADA PATH, MAHAVIDVALAYA TASGAON, DIST. SANGLI (MS), INDIA-414312

And

ASSURA PHARMA TRAINING INSTITUTE (APTE), SPHURTI CHOWK, VISHRAMBAG, SANGLE-416416.

Doth the above resultional parties wishing to develop friendly and cooperative relations in the fields of missing and placement have agreed to establish the present Mensusumben of Understanding (MOU).

I. Subject of the Agreement

Both parties agree to coplore the following general forms of ecoperation.

- Industrial Training to all IISc/MSc (Chemistry/Microbiology/Biotechnology) students to the college caregos area.
- College will provide premises to conduct the training program.
- 3. APTI will agree to pay some % of charges to college for using utilities per studies.
- 100% placement support will be provided to all trained students from APTI hand on their individual performance.
- Cartificate, Study material & hands-on experience of all sophisticated instruments used in the QC & R&D department will be provided by APTI or college.
- 6. Cooperation in training & placement.
- Joint organization of campus interviews at both locations.
- Extending the help and mediation for any other collaboration in the educational and technology area on a charge basis.
- 9. Any other areas of co-operation as agreed to by the Parties from time to time.

thefore proceeding with any such activities, the parties shall discuss whether it is advisable to setter into a Specific Agreement that includes additional terms and conditions regarding costs, intellectual property, liability, and other matters as the circumstances may require.

II. Obligations of the Parties

To implement the MOU the parties cremnit themselves to provide murmary conditions:

- 2.1. Both sides will maintain organing communication and circulate constitul information promptly.
- 2.2. Both parties agree that all financial agreements necessary to implement this MOU must be regettated. Nother institution shall have any financial obligation to the other institution based on this Agreement.

ASSURA PHARMA TRAINING INSTITUTE

Web: www.assura.net.in

Contact: 9922007628

Email: assura_pharma@yahoo.com / assura.pharma@gmail.com

 Restination of separate concrete research projects within the frames of the MOU will be expelated in separate, Specific Agreements.

III. Turns and Order of Action

- 3.1 This MOC will become effective upon the date of signature by the representatives of the institutions and, if applicable, approval by appropriate authorities.
- 3.2. Fifter party wishing to make changes or terminate the MIXI shall notify the other partner in writing of such intentions so later than three results before the suggested changes should go into effect.
- 3.3. Each publy reserves the right to entiatorally terminate the MOCI should the other partner fail to falfill its responsibilities as stated herein.

IV. Responsibilities of the Parties

- 4.1 Each party acts on its behalf in all relations with a third party. Neither party will be suspensible for any retaile commitment of the other party.
- 4.2 The parties shall remain independent of one another and nothing herein shall be construed or interpreted, by implication or otherwise, to from a partnership, agency, joint venture, or other formal hardness association.
- 4.3 Both institutions subscribe to the policy of equal opportunity and do not discriminate on any basis, including but not limited to more, easie, sex, age, ethnicity, religion, or national origin.

V. Signatures

The MOU is written and signed in two copies having squal filess, each party receiving two copies for the occord.

Umbrella Memorandum of Understanding

Memorandum of Understanding

Between

PADMABHUSHAN DR. VASANTRAODADA PATEL MAHAVIDYALAYA TASGAON. DIST. SANGLE (MS), ENDIA-416212

And

ASSERA PHARMA TRAINING INSTITUTE (APTIL SPIRURTI CIROWK, VISHRAMBAG. KANGLI-01416

Both the above constituted parties wishing to develop friendly and cooperative relations in the fields of training and placement have agreed to establish the persont Monumentum of Understanding (MOU).

I. Subject of the Agreement

Both parties agree to explore the following general forms of acoperation.

- 1. Industrial Training to all MSc/MSc (Chemistry/Microbiology/Biotechnology) stadents in the andings campus over.
- College will provide premises to conduct the training program.
- APTI will agree to pay some % of charges to college for swing utilities per student.
- 6. 100% placement support will be provided to all trained students from APTI based on their individual performance.
- 5. Certiflows, Study exteriol & hands-on experience of all sophisticated sustainents used in the QC & R&D department will be provided by APTI or college.
- 6. Cooperation in building & placement.
- Joint organization of campus interviews at both issurions.
- 8. Extending the help and modicion for any other collaboration at the educational and technology area on a charge basis.
- 9. Any other areas of co-operation as agreed to by the Pieties from time to time.

Before proceeding with any such activities, the parties shall discuss whether it is advantue to geter into a Specific Agreement that includes additional torox and conditions regarding costs, intellectual property, fishicity, and other matters as the circumstasces may require.

(Academic Year 2024-25)

A Report on

"On-Job Training (OJT) Program"

Organized by

Department of Chemistry & IQAC in Collaboration with MoU Partner Assura Pharma Training Institute Sangli

03th to 15th March 2025

Program details

Title of program	1	12 day's hand on On-Job Training (GJT) Program	
Day & Date	1	06" to 15" March 2025	
Venie	1	B.Sc. SMART CLASSIBOOM No. 101 & COMMON FACILITY CENTER (CFC)	
	т	No of students	Male-07
No. of Heseficiary	1	No. of students Female-20	
	T	Total	27

Introduction

A 12 days on "On-Job Training (OJT) Program" was organized Department of Chemistry PDVP College Tasgain on 03/03/2025. Mr. Prostam B. Diwan, Director Assura phorma Training Institute, Sangli was the guest speaker of the day. Mr. Product B. Diwan holds advanced Instrumental laboratory of analytical laboratory and has a vast experience in the pharma industry. Dr. Sachin K. Shinde PG Coordinator in his welcome speech emphasize on technological gap between the Course curriculum and industry and emphasize on learning technologies as per industry requirement to must such gaps that would belp students for better phacement.

Objectives

- To give students the opportunity to apply the knowledge and shifts they have acquired on companies a roof-tife work situation.
- To provide students with opportunities for practical, hands-on learning from practitioners in the students areas of specialization.
- To expose students to a work environment, common practices, employment opportunities
 and work orbits in their relevant field.
- To enhance the employability skills of the students.
- To provide opportunities for students to be offered jobs in the regarizations in which they
 undergo their Industrial Training

Program Outcome:

The outcome of the program was considered in the following points.

The workshop help the student for

- Understand the organizational environment and recognize the requirement of the organization and cope with the organizational scenario.
- Identify curror paths taking one account their individual swengths and aptitude and propure a report about the work experience in the organization.
- Develop the employability skills and Stan-Up skills to increase his/her ability to engage in life-long learning.
- Develop individual confidence to handle various industrial assignments and acquire life shifts to meet societal challenges.

OVEROPUCTION

The Pharmaceutical Industry is an industry is an in-medicine that discovers, develops, produces and markets pharmaceutical drugs for use as medication to be administered to patient, with an aim to cure and prevent diseases or alleviate.

The India is 3st largest pharmacy sector and globally 4st largest one. Presently market size in India stands for 45 hillion. Largest 600 USFDA (United State Food & Drug Administration) approved plants in India. USFDA means "The componies which are selling their product in US murket that componies are called as USFDA approved componies." Near about 22,000 registered drugs manufactured in India. **Hyderabad** is dominant pharmaceutical sector in our country.

DEPARTMENTS FOUND IN PHARMACUTICAL COMPANY

- Production (formulation and development)
- Quality (analytical development)
- · Operations
- Research and Development
- Others (packaging, warehouse, store)

VARIOUS DEPARTMENTS AND THEIR FUNCTIONS

1. PRODUCION:

As mentioned above, pharmacratical companies are essentially manufacturing companies. So production would have the highest portion of the employment within company. A typical percentage of total company employment is between 30% and 50% depending on the stage of the company. The production and manufacturing department deals with all stages of pharmaceutical product manufactures, from producing active ingredients through the completion of finished products(packaging).

2. QUALITY DEPARMENT:

Quality is the function within the company that monitors all the production related activities, ensuring that they meet the standards and predefined expectations. Depending on the stage of the company, the quality unit can be up to 30% of total company. The following is the levels down department activities:

QUALITY ASSURANCE:

The department which assures the quality of product is called as the quality assurance department.

QUALITITY CONTROL

The department which controls the quality of the product is called the quality control department.

3. Operations:

Operations ensure that the production continuous function as espected, including the process, plant and equipment/system. A typical percentage of total company employment is between 5% and 15%

4. Research and development:

Depending on the stage, the R&D department can play a critical role within the company. Many small size companies still focus on developing products rather than producing on large scale. For these companies the percentage of total employment can be significantly higher than the large companies that already produce product on large commercial scale.

5. Other departments:

This category includes arises such as Sopply chain, transleting, HR, finance, etc.

Although their scope of work is typically not directly related to production, their existence is still critical for the success.

OPPORTUNITIES IN PHARMACEUTICAL INDUTRY IN INDIA

The pharmacestical industry has the vast career opportunities. The pharmacestical companies are classified into following type.

- 1. Bulk drug companies
- 2. Formulation computers

1. Bulk drug companies:

The companies which are produce the non active pharmaceutical ingredients are colled the hulk drug companies.

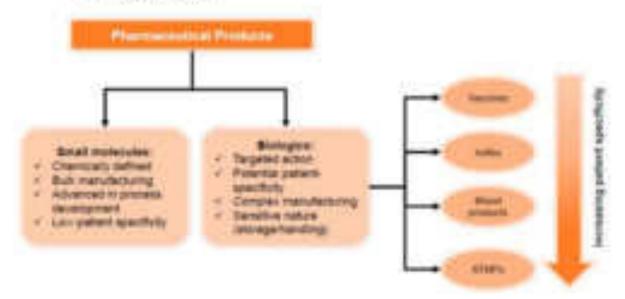

2. Formulation drug companies:

The companies which manufacture the injections, tablets, creams, capsule etc are called the formulation-based companies.

Various types of career opportunities are available in the Indian pharmoceutical sector. There are various types of plants and companies hires the fresh chemistry graduates. Those plants are as follows:

Career opportunities for the M.Sc, organic students:

- Research and development
- API manufacturing plants
- · Excipient manufacturing plant
- Formulating plants
- Chemical manufacturing plant
- Clinical studies

CALIBRATION

Calibration is the set if operations to compare the values indicated by an instrument (weighing, recording and concentration or value given by material) and corresponding value of reference standard under the specific condition.

Importance:

- Calibration ensures that an instruments or the measuring device produces accurate results.
- Calibration is as perform regular interval of time or period.
- Calibration is performed as standard operating procedure (SDP).

Calibration frequency:

Calibration frequency is the frequency which can show the initial and expiry date of calibration of the instruments.

There are various types of instruments are used in the pharmaceutical industry and all have their own calibration frequency are as follow.

Isotromest name	Calibration frequency	
Analytical balance	Daily/monthly	
pff rooter	Every six munth	
UV spectrometer	Every six months	
FTIR	Every six months	
HPLC	Every six months	
GC:	Every six awartse	
Dissolution tester	Every six months	

INSTRUMENTS USED IN PHARMACEUTICAL INDUTRY.

INFORMATION SHOULD KNOW ABOUT ANY INSTRUMENTS:

- L. Make of the instruments
- Version er model number.
- Principle of the instruments
- 4. Kange of instruments with its unit.
- 5. Parts of instrument and its function.
- 6. Advantages and uses of instruments
- 7. Disadvantages, calibration frequency of instruments
- ft. Make of the software used to run this instruments and their version.

WEIGHT BALANCE

Halance:

The analytical balance used for weighing of the various types of solid chemicals. There are three types of balance used in a pharmaceutical industry are as follow.

- 1. Micro balance (Ireg to 50mg)
- Analytical balance (Imp to 250mg).
- General balance (2mg to 2000mg)

The balance is calibrated by the NABL (National Accordington Board OF Tenting & Colibration Laboratories)

UV SPECTROMETER:

Make name: SHIMADZU

Model No: UV1700

The IIV spectrumeter is haved on the principle of Lamberts and Beers law:

It states that beam of monochromatic radiation passing through absorbing mediathen the absorbance are directly proportional to the path difference and the concentration of the absorbing media.

The calibration frequency of the UV apectrometer is every six months. To calibrate the instrument need to control wavelength, control of absorbance, limit of stray light. The standard cuvette path length is about 10mm.

DISSOLUTION TESTER

Make name: Electrolab

Model no: TDT-08L

The rate of release of drug after frequent interval of time under specified it's the actual work of dissolution tester.

The calibration frequency of dissolution tester is about every six months. The parameters used in a dissolution tester are RPM, temperature, time and media.

GLASS WARES

There are two types of glass wares are used in pharmaceutical company. Are as follows

Type A [Authorized by ASTM (s. American society for testing material).

Type B

PERMIT

There are two types of pipette sored in pharmaceutical company

- 1. Graduated pipette
- 2. Bulb pipeste

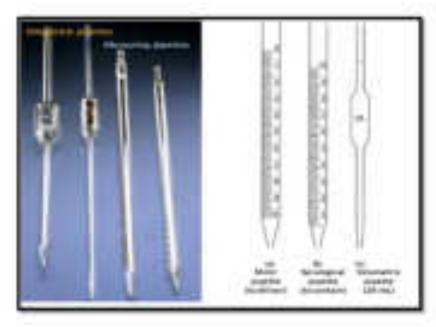

The bulb pipette is more accurate than the graduated pipetts.

BURKTIK

Titration burettes are must be rinsed two or three times to avoid formation air bubble to ensure cleaning of burette. Adjust the burette at the burette at eye level. Select the burette properly. Check the meniscus before actual titration to ensure starting the titration at 0.0 ml. ensure that there are no air bubbles in the burette during filling.

VOLUMETRIC PLASSE

Volumes of solutions to be made by hadding the flack to the eye level. Volumetric flasks to be wipe at the neck from inside to avoid the butter paper getting wet arrieose pressure during mixing after making up to volume with solvents. Mixing of solvents must be done at the work bench. The final volume must be made using clean and dry piperto.

HPLC

Make name: Agilest HPLC System

Medel no: 1120-1200 series

The Bansian botanist Mikhali Tarvet is considered to have invented the chromatography technique he called this chromatography. It is developed in 1930 to 1940.

Principle:

MPLC is works on the principle on absorption chromatography and it is separation technique based on solid stationary phase and liquid mobile phase.

Parts of HPLC:

- 1) Mobile phase bottles
- 2) Display /mentitor
- Degasser
- 4) Reservoir
- 5) Pumps
 - Pumps used in a HPLC system.
 - Reciprocuting pump
 - III) Displacement pump
 - iii() Pneumatic pump
- 6) Furge valve
- 7) Auto injector
- 83 Column compartment

Culumns used in a HPLC system

- () Hypersil BDS
- ii) Hypresii 005
- III) Ityperali Cit
- (v) Water column

9) Detections

Detectors used in MPLE

- Refractive index.
- Devisible
- iii) Fluorescence
- iv1 Photo diode array

Students imeracting with Guests about HPLC

all Meter

Pet meter:

Make name: Laboura

Model no: LMPH10

The p^{ij} meter is used to determine whether the solution is acidic basic or neutral. The range of p^{μ} meter is 0 to 14, in which 0 to 6.9 is acidic p^{μ} , 7 is a neutral p^{μ} , 7.1 to 14 is a basic p^{μ}

The electrode used in p⁴ meter is a combine electrode containing 9.1M HCl in a glass electrode and 9.1M KCl solution in a reference electrode. The p⁶ electrode is shored in a 0.1 m kCl solution.

GENERAL INFORMATION

Gowning procedure:

Gowning procedures refer to prevent contamination of product to a pharmoceutical manufacturing facilities.

SOP & STP: (STANDARD OPERATING PROCEDURE & STANDARD TEST PROCEDURE)

SOP & STP are documented procedure follow in a industry to ensure consistency, quantity and complete with regulatory standard. It is important for critically maintaining product quality, ensuring safety and resetting regulatory requirements.

TERMS IN A PHARMACEUTICAL FIELD:

- Validation: establishing discumented evidence which provides a high degree of assurance that a specific process will consistently produce a product meeting its pre-determined specifications and quality attributes.
- GMP (good manufacturing practices): GMP is a system for ensuring that products are consistently produce and controlled according to quality standards.
- GLP (good laboratory practices): It is a set of principle where laboratory studies are planned, perform, mentured and reported to order to determine quality, purity and efficiency and safety of drug.
- GDP (good documentary practices): The good documentary practices mean 4D i.e..
 DB WHAT IS DOCUMENTED, DOCUMENT WHAT YOU DO.

EXPERIMENTAL SECTION

Experimental work:

Determination percentage of caffeine in the given sample by using UV spectrometer.

The UV abstraction spectrum of calfiene exhibits a pair of absorption band peaking at 205nm and 273nm with a characteristics absorption shoulder between them. Typically calliene content is determined by measuring absorbance at 275nm.

Result: In above graphical representation the maximum absorption shows at maximum wavelength at 269nm.

VISIT TO ASUURA PHARMA TRAINING INSTITUTE

ATTENDANCE

Summary

This training has equipped participents with vital skills and knowledge ensential for accuracy and practical growth through engaging sessions and practical knowledge energies, attendees have gain meight into pharmaceutical work. As we warp up, remember to apply those learning in our stally work in latienatory.

This job training programme will helpful to achieve a great experience in future carner aspects.

The studyed perturbation in the programme is differently (s) the revenue of the programme in their individual cancer plans, (b) their understanding and convection education programme value and (c) their investment in the programme. A combination of all these factors leads to high participation.

Curtificate Programme in Banking, Finance and Insurance (CPBFI) BATCH PERFORMANCE REPORT

3. Alterdance Details

Course	Attenderes %
Overview of Retail Basting	10.30
Overview of Foodprint	95.39
Communication and	76.68
Wortspiececkells	
Total	30.39

Attendence State	% of students
British EUK	3.69
41 × 75%	6:48
71 - 100	100
. Name 81%	97.37
THE	100:00

Arterdonian is others by (1) contraction eligibility criteria (CPSH requires minimum) 65% attendance), (3) training quality, which is a combination of trainer's command over subject, the publiquity used and students' porthipation and (8) students' evilingment and ability is altered, have analyzedy of softwaresturn and recorded violents' unlikely events or family events have a big influence on coulombs' addity to attend.

6. Performance to stelling Assessment Timbs - Atomice Scores

Course Name	Stores before tracing	Singer after training	Helmont
Overview of Rysoll Standing	34,88	72.74	36.00
Overylyne of heaptonics	34.11	69.02	35.40
Communication and Workplace skills	33.67	90.00	36.29
Total	35.30	-70.94	39,34

Performance in online assessment tools is affire by the attordance and attentiveryon of the coulons and by the transport purify of CPBF transport. Students with higher attendance hypically perform better than refers.

Performense in HE Workshop Interviews.

	Attended	Shermond	Statem Rake To.
Participation and passess	28	- 10	25.71

A 16th Workshop is conducted at the and of every batch, wherein recruiters from Baja; flesary and its substitutionies, interview consistson for specific mine in 80% minutes. The recruiters shortflet conductes based on these interviews and provide up a for all conductors that they believe have a very high chance of being selected in a job interview. This independent assumment by professional remainers is a good feed industrial employed by.

Certificate Programme in Banking, Finance and Insurance (CPBT) BATCH PERFORMANCE REPORT

E. Blacket professement

Yota of students	Name of Street, Spinster,
Mis confidence fee improved (ARM of December 1991)	83.16
My communication has improved (IAR Development)	34.05
My voluntry introductor has improved (firmshidgs Descriptions)	56.76
OPEN wise the right electron for my center (Gerral satisfactors).	47.57

Students jain CPBN with athlerent objections, us. It is important to seek their confirmation about improvement in their own attitude, shifts and transferings. This confirmation along with ICK Workship performance are buy performance indicators of CPBN.

T. Net Prometer Score (NPS):

Years of students	Mad respondents
On a scale of 3-30 how likely she you to recummoning Offiff to others?	
yary Litely - Promotors - Score of from 16	67,57
Not Littley - Detroctors - Scient of O.to N	5.41
Net Proriatet Scote + Provintero - Detractors	43.16
Overall Rating - Good C-S), Excellent (+50%), Exceptional (+70%)	Excellent

Not Promoter Score or NPS is glutally regarded as a strong indicator of systemer expensions and loyalty. For SPNS also NPS is regarded as an expension section testigate.

8. Feedback about feculty:

Faculty Nation	54901	TLOS COORMINE
LAMMEANT WASHING KATH	Stocking	Mon
AARTI SANSAY SANAGRISAA	Insurance	4534
SACHIN HADGOUGE	ches	70.17

#"X of students Yest have pated the requestive facults as "Tecologic".

Feedback attout individual framers help in approximent of the trainers and their delivers quality. These ratings are spent to intentify heat trainers for each subject and so plan supporting interventions for trainers that are not at par-

Certificate Programme in Banking, Finance and Impurance (CPRE) BATCH PERFORMANCE REPORT

B. Comments from Build, Flowery CPSH Teams.

What worked well-

- The shadge to accessment soons suggests that studients were yourselfed to bissione their capabilities and their efforts are yielded.
- We are pleased to note that more than half the students, that provided femiliarly, 'strongly' agree that priving CNRN was a right decision.
- The Hollowis of the batch have inverted attempted the sessions and it is visite from the attemptonia.

What could have liven better --

 Many malerits did not appear for the YN Workshop despite being regular to the stasses. They would have leasted a lot from the appearance.

We also un-recent our approximate for the efforts put in by the soundnester luminosity firms layeredison, and other staff in making the batch successful. Describ, some of the students have sincerely completed the progress and performed and and we are confident, every one of them has a successful carrier about

ACTIVITY REPORT: Certificate Program in Hanking Finance & Insurance (CPRFI)

2024-25

Place: Padmathimhan Dr. Vananturdada Patil Mahaybiyalaya, Taspon

Corres: Corrificate Program la Banking Finance & Insurance (CFBFE)

Date: 1th August 2028 (Dentities 1 month)

Visine: Block and 36 A Computer Lab.

Total participants: Total Students: 97 (Male: 243) | [Female: 73.]

Brief Description

Padrushkushus Dr. Vasantsaodada Patil Mahavidyakeya, Tangaon. Department of Communic has organized INTERNAL QUALITY ASSURANCE CELL & DEPARTMENT OF COMMUNICE organizes course under Communico Association a Contifuora Program in Banking Frozen & Insuresce (CPSH). This proposal was referred through the Placement Cell. Padreathushan Dr. Vassettuodada Patil Malavidyalaya, Tangaru College was delighted to sign an MOU with Bajoj Finance Limited to conduct a 100-hour Certificate Programme in Banking France & Insurance.

The sole objective of the progrant was to enhance the homee's ability with an assurance that it would contribute to build a better personality which would definitely distinguish item. How others especially when it comes to jub.

The Certificate Programme in Burking, Finance and Insurance was structured having a strong assessment criterion which includes minimum 25% attendance and minimum 50% score in unline assessment without which a student will not qualify for the certificate.

The T^e and II batch Contains Wit students from the Department of Commerce exhibit for this programme and 76 of them successfully qualified for the certificate, 55 students for HRW Star performance and 22 students for HRW participation certificate.

A Pre-Assessment Quie was combacted on 31/07/2024 to assess the student's level of awareness about financial service industry believ the start of the programme. The program was insteaded on 1/05/2024 virtually. Thereafter, it was an online sensions sleeked by the institutes.

The CPRFI started with a firme-day NWARDOW session by Mr. Amit Yologi and it was one of the most enjoyed sessions by the students. He mok the learners to the CPRFI program in a much desper level.

The Banking classes were angaged by Mr. Amit Yafagi & Learnan Kotti who explained every topic clearly which had Scarners to analyze the content. The classes were of great help to madests who are planning a career in the field of banking.

The interiors and flaunce classes were sundouted by Minn. Budagirdar, tought students through his life experience. He shared interesting and valuable experience which he had with his elients as well as follow colleagues and showed how the life of an insurance agent truly is.

Students understood the benefits of being an insurance agent and also the need to have an insurance policy for inspects.

Continuous and Work Builts remains were conducted by Mr. Mander Ethange. He acrossed various topics which helped anhance their communication and interactive skills. Agart from this, group projects and assignments were given and also conducted muck interviews.

On 65/09/2024 all the participants were given a time size to attend in line much members with judges appointed by Bajaj Finnery which was an amazing experience for the students. The feedback on student's performance was reported to the course coordinator by the learning partner with all details regarding attendance and performance in examination with regard to all students.

On the whole, all the classes that were held during the 100 hours of insulting-huming were indeed very useful to all students regardless of their flature carrier plans. Finally, all the students had a post assessment gate which showed an obvious improvement in their scores.

Course outcomes -

- 1. Studied tepre Gaining wold understanding of banking floraudik tournasts specialism
- 2. St Develop analytical skill for financial discission making
- 3. Students will propose the entity land position in fluoridal institution
- A. It Cultivate as official approach to business

Title of Programms | Online Quie on "Birth Antiversnary of

Hajarski Shahu Maharaj*

Organizing Department : History

Date (26/96/2024)

No. of Participants 343

Coordinator Mr. Hanjeet Kumbhar

President Prin.Dr.Millad Hajare

The Department of History organized an Ordine Quiz Competition on the Life and Work of Rajarshi Shahu Mahami on 26th June, 2024. The event aimed to engage participants in exploring the profound contributions of Rajarshi Shahu Mahami, a key figure in Indian Social Reformer. Through the utilization of the Google Form platform, the correction provided a convenient and argumible medians for participants to test their knowledge on this influential translead figure.

Objectives:

- 1. To commemorate the life and work of Rajarshi Shahu Mahami-
- To encourage participants to delve into the historical and philosophical aspects of Rajarshi Shahu Maharay's teachings.
- To promote a nesse of academic curiosity and interest in Indian history and Socail. Reference.

Programme Overview:

The online quie competition was concluded through a deflicated Google Form that contained a series of questions related to various aspects of Rajarshi Shahu Maharaj's life, philosophy, and contributions to the society. The questions were carefully carated to cover a broad spectrum of topics, ensuring a comprehensive exploration of the subject matter.

Outcomest

The competition witnessed enthusiantic participation, with a total of #3 individuals taking part. Among the participants, 22 were female, 21 were male, and 3 were faculty members, showcasing a diverse engagement from both students and academic staff.

The curcement of the quie competition go beyond the more tally of correct answers. Participants were able to enhance their understanding of Rajarshi Shahu Maharaj's life and teachings, contributing to a broader dissemination of knowledge within the academic unmanaity. The unimpetition also fostered a sense of currentity engagement and academic camaraderic among participants.

Summary:

The Department of History's Online Quiz Competition on the Life and Work of Rajarshi Shahu Maharaj was a resounding success, activing its objectives of automorphing a reverse historical figura, promoting academic interest, and fintering automorphing engagement. As we reflect on the success of this event, we anticipate that such initiatives will continue to play a crucial role in Someting a deeper indemnanding of historical figures and their impact on society. The Department of History remains automorphist to organizing events that enrich the academic experience of students and faculty alike, contributing to the available intellectual vibrancy of the muitation. Mr.Rasijiet Kombhar work as Convener of this Activity and Dr.N.D.Naik helped for this activity. How Prin. Dr. Milind Hojare for his guided and acoperated well for this entire activity.

Online Oniz Report

Title of Programme: Online Quit on "Life and Work of

Swami Vivykanand"

Organizing Department (History)

Date :12:01/2025.

No. of Participants 155

Coordinator Mr. Banjeet Kumhhar

President (Pyta: Dy. Milled Hujary:

Work: of Swami Vivekanand on 12rd January, 2025 under the MoU with Shivaji Vidyapeeth Itihas Parishad, Kulhapar. The event aimed to engage participent in employing the profound contributions of Swami Vivekanand, a key figure in Indian Social Reformer. Through the unfization of the Google Form planform, the competition provided a consument and accessible medium for participants to not their knowledge on this influential historical figure.

Objectives:

- To community the life and work of Swami Vivekasasal.
- To encourage participants to delive into the historical and philosophical aspects of Sword Vivekanarul's teachings.
- To promote a sense of academic outlesity and interest in Indian history and Social.
 Reforms.

Programme Overview:

The online quiz competition was conducted through a dedicated Google Form that contained a series of questions related to various aspects of Swami-Vivokamand's life, philosophy, and contributions to the society. The questions were carefully curetted to cover a broad spectrum of topics, mouring a comprehenoise exploration of the subject

Chittenmen!

The competition witnessed enthusiastic participation, with a total of 55 individuals. taking part. Among the participants, 30 were female, 25 were male, and 3 were faculty incerbers, showeasing a diverse engagement from both students and senderny staff.

The outcomes of the quie competition go beyond the most tally of compet answers. Participants were able to enhance their understanding of Swami Vivelonand's life and teachings, contributing to a broader dissentitation of louwledge within the analystic automatity. The competition also fistered a sense of community engagement and scudenic camanaterie among participants.

Summary:

The Department of History's Online Quiz Competition on the Life and Work of Swami Vivekamend was a resounding success, achieving its objectives of commemorating a revered historical figure, promoting academic interest, and fintering community engagement. As we reflect on the success of this event, we anticipate that such initiatives will continue to play a crucial role in financing a deeper understanding of historical figures and their impact on society. The Department of History remains committed to organizing events that enrich the academic experience of students and faculty alike, contributing to the overall intellectual vibrancy of the institution. 2. Objective:

- > To know Family background of the villagers
- To Know Socio-Political and Educational status of the villagers
- To incolente research mind among the student.
- > knowing impact of effective questionnaire

3. General information about programme:

Department of Political Science has conducted Extension Activity - Socio-Political Survey organize at Vanumbe village. This survey was conducted on 20/03/2025 in which 23 students out of which 10 female and 13 male students of our department were participated. The main objective of this survey was to know socio-Political and educational background of the villagers, which would lead to figure out them who are lack in these domains. On the basis of the outcome, we would able to foster the villagers for their sustainability. Moreover, theme of survey is also incorporated in corriculum under Political Science subject Dr. Nitin H. Guikwad guided the students for this survey.

Gentagged Photos with caption

is thindren dring interstor; the Villagery

2. Summary

The department of Political Science and IQAC of PDVPM, Tangean has organized Survey activity on Socia-Political survey at Vanambe village, on 20% March 2025. The main objective of this survey was to know Family background of the villagers, Socia-Political and Educational status of the villagers, inculcate research mind among the student, knowing impact of effective questionnaire. Under the expert guidance, an effective questionnaire has been provided to the participated students, so that they could able to complete this survey. The students understood how effective questionnaire could help to fulfill the objective task. Under this survey, many samples are collected in which various domains like social, economical, educational, agricultural, and day to day facilities included. An analysis of this survey highlights on various daily need-based things such as more expenditure on hospital and medical facility, need of common library and etc.

E. Programme Dotcome

As the questionnaire is one of the effective tools to gather information in the field of research, the students could able to understood how it can be made and use this easily for survey. In this process students experienced how intercommunication skills may increase while communicating with different villagers. This activity leads to develop and enhance research mind amongst the students.

Introduction:

Department of Sociology has expanied One Day Workshop on "ENTERNISHEPOUT/RESEARCH PROJECT WHITING for UG/PG" dated 21/02/2025. For this workshop, a total 84 students were present from the Ami, Commerce Faculty.

We all are Welcomed by President Prof. J.A. Yadav, Introductory speech was given by the Articl Simuwaki (Co Ordinator Lead College Schume) Dr. Sitzuti Parachism explained about INTERNSHIP AND ON JOB TRAINING, Dr.V.D.Kumbbar Guidné about Research Project writing.

Workslarge fixtuing on himmitip (On-ibe-Joh Training - OJT) and Research Project Writing are assential for undergraduate (UG) and postgraduate (PG) maderns to bridge the gap between academic losening and practical application. This workshop aims to equip students with the recessary skills to excel in internalisps and research projects, finiteling professional development and academic excellence.

Objectives of the Workshop:

- Entrance Practical Skills: Provide students with hundr-on experience in real-world austracies, improving their problem-onlying and enalytical abilities.
- Develop Research Competencies: Equip studeons with the skills to design, constact, and present research effectively.
- Fusior Professionalism: butill workplace eviquette, communication skills, and efficial praction assertial for professional growth.

Outcomes

- Enhanced Skill Set: Students will acquire practical skills applicable to interestion and future employment.
- Insperved Research Abilities: Participants will be adopt at designing and encarting masurch projects.
- Preferenced Growth: Instrumed awareness of workplace expectations and professional combact.
- Circuit Readman: Students will be better prepared for the job market with refined: skills and experiences.

Eviduation and Feedback

Foodback Forms: Coffected participant faiofback to improve figure workshaps.

Conclusion:

The Internship and Research Project Writing Workshop is designed to empower UG and PG students with the necessary trees and knowledge to exact in their academic and pentiusianal parasits. By integrating theoretical bearing with practical application, the workshop aims to feature a generation of students who are not only academically professor but also industry-ready.

Subject: Request for permission to organize Collaboration activity under MOU.

AIDS Assurences Banquii making and Ensay writing Competition.

Mespected Sir.

With reference to the subject mentioned above, department of Zoology going to conduct Collaboration activity under MOU with The Medical Superiendent Rural Hospital, Turquen. AIDS Assurences Rangoli is making and Essay writing Competition arranging from 09:01/2025 and 11/01/2025 for B.Sc. 1, B. and BI your students. The primary objective of the competition was to use set as a medium to educate and semiline students about HIV/AIDS. The event simed to append awareness about HIV/AIDS, its provention, and the importance of eliminating the stigms and discrimination associated somethe discrimin.

As a head of the common department, I am applying here for the permission to conduct the said activity.

Throwing You.

Years Fathfully

Sobject: Regarding the Permission for organizing Rangoli and Empy Competition.

Respected Sir.

With reference to the subject above, Department of Zonlogy going to organize a Rangell and lianty writing competition on "AIDS AWARNESS" programme in collaboration with Rural Government Hospital Tangana District Saugit. The event will be part of our Red Ribbon Clobcelebration and aims to AIDS/ HIV awareness among the students.

The Rangeli comparision will hold on 11/01/2025 and Essay competition will hold on 09/01/2025 at Zoology department from 9.30 u.m. to 11.30 n.m. It will be open to all students who wish to participate and will focus on traditional designs and thenses reflecting the specie of to AIDS/IIIV awareness. We will enture that all nocussary materials will be provided, and proper safety measures will be taken during the event.

I require you to kindly approve this event and provide your guidance for a successful execution.

Thurbing you.

Thereted .

Vanue: Department of Zoology

Organized by: Department of Zoology under MOU collaboration activity

Introduction:

As part of the World AH2S Day awareness catapaign, the Department of Zoology organized an AH2S Awareness Rangoli Competition. The event nined to spread awareness about HEV/AH2S, its prevention, and the importance of eliminating the stigms and discrimination associated with the disease. The competition witnessed enthusinitic participation from stadents across various disciplines.

Objective of the Competition

The printary objective of the competition was to use art as a mediate to educate and sensitive students about HIV/AIDS. The thesis formed on:

- Presention and control of HIV/AIDS.
- The importance of safe practions
- The significance of spreading assureness and eliminating misconscipross.
- The global fight against HEV/AIDS.

A total of 10 mans participated in the competition, with 21 members. The students exhibited, their creativity through vibrant and thought-provoking ranged designs. Using minute colours, flewers, and various settatic elements, the participates beautifully depicted menages on AIOS prevention, safe practions, and the next fire social acceptance of HIVs-positive individuals.

Judging Criteria

The tangettis were evaluated based on the following criteria:

- . . Creativity and originality
 - · Relevance to the theme
 - · Andhetic appeal and astror combination.
 - Clarity of toesaugo conveyed.

The pured of judges included Ms. P. Micaglan; and Ms. P. Judhav who resticulously assessed the art works and selected the winners.

All participants and winners received certificates of appreciation. The event concluded with a brief awareness talk by Dr. M. S. Hujare, complications the importance of certificate in spreading knowledge about HEV/AIDS.

The outcome of the Event.

The AIDS Awareness Rangell Competition accountfully achieved its good of speculing awareness and educating students about HIV/AIDS through creative expression. The event:

- Increased knowledge and understanding about HEV/AIDS prevention and stigms reduction.
- Transcraged students to use art as a regard of social reassaging and awareness.
- Fostered teremwork, vicativity, and contenually engagement.
- Inspired participants to become advocates for HIV/AIDS awareness in their constraints.

Conclusion

The AIDS Assession Rangelli Competition proved to be an effective and engaging very to educate students about a crucial health ionar. The artistic expressions not only showcased the creative talent of the participants but also reinforced the message of awareness, prevention, and social responsibility. The event successfully messaged modern, to take part in the global introduced against EIIV/AIDS, making them are businessed on a charge in their communities.

Organized by: Department of Zaology under MOU collaborative activity

Tatroduction:

BIV/AIDS remains one of the trust significant global health challenges, affecting millions of lives across the world. Awareness and education play a crucial role in preventing the spread of the virus and reducing the stigma associated with it. To promyste knowledge and encourage discussions on the subject, the Department of Zoology regarded as ABDS Awareness Ensay Competition on 09/01/2025 to mark World AEDS Day. This competition aircred to engage students in remainingful research and discussions about HIV/AIDS, its causes, transmission, impact, and preventire measures. By providing a platform for students to express their perspectives and findings, the event sought to enhance their understanding and equip them with the resensory information to contribute to public health assuments initiatives. The competition also emphasized the importance of dispetting myths, advocating for rafe practices, and featuring are purply towards individuals afformed by HIV/ARISS.

The competition received an enthusiantic response, with 12 stadents from vacious departments juriscipating. The participants submitted well-researched essays covering different aspects of HIV/ARIXS, including its medical, social, and psychological impact.

Objectives:

- To observe makern about the causes, transmission, and percention of HFV/AIDS.
- To encourage critical thinking and research on HIV/AIDS awareness.
- To lister a sense of responsibility towards public health initiatives.

Judging Critoria: The course were evaluated based on the following criteria:

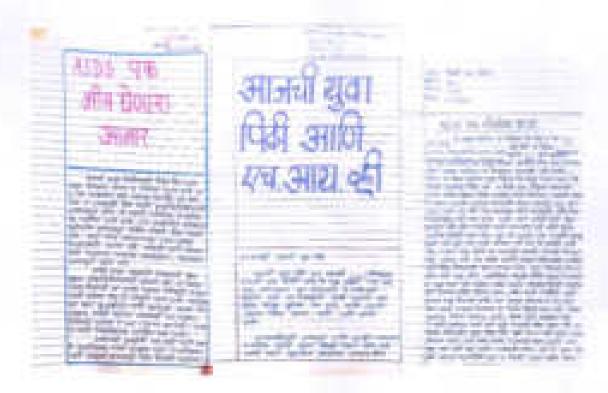

- 1. Content and Reference Assertacy of infirmation and reference to the forms.
- Creativity and Presentation Unique perspectives and clarity in writing.
- 3. Language and Coherence Proper grammer, structure, and legical flow of ideas.
- 4. Impact and Awareness The coas's effectiveness in mixing awareness.

The winners were awarded certificates to recognize their offlore and contributions to the cause

Outcome: The competition successfully increased awareness among students about HEV/AIEPS, its prevention, and the importance of enallicating stigms. Participates expressed a despet understanding of the topic and plodged to sprind awareness within their communities. The event also belond otheres students' research, writing, and critical thicking skills, fintering a presenter suppressed to social health issues.

Conclusion: The AIDS Awareness Easily Competition proved by he a successful initiative, featuring awareness and promoting informed discussions aroung students. The event amphosized the need for commond efforts in spreading account knowledge about HIV/AIDS and clininging the stigma associated with the discusse.

The Department of Zoology looks forward to organizing similar events to sympower students with knowledge and encourage preactive participation in public length compaigns.

Bate: 27/12/2024

As part of our initiative to gravide practical exposure and enhance your learning experience, we are pleased to aretonnee a field visit in collaboration with Shrue Mahahawai Agro Agency, Tangana. This field visit is designed to familiarize you with the facus technological advancements in agriculture, focusing on hattery-powered pumps and efficient scrap management practices.

Details of the field visit:

- Topic: Introduction to different types of Battery-Powered Partys in Agriculture
- Burto:31/12/2824
- Time: 01:36 PM;
- Yerene: Shree Muhatasmi Agro Agency, Tangaon.

This field wish will provide bonds on experience and valuable insights into somewhile forming practices, beliging you understand the growing role of technology in modern agriculture.

We encourage following students to participate in this field visit to gain exposure to the tools and techniques that are shaping the future of agriculture:

Objectives of the Visit:

- To introduce the concept of buttery-powered pumps in agriculture.
- To familiaries participants with sustainable farming technologies, particularly energy-efficient solutions in water statusponent.
- To explore efficient serso management practices used in agricultural settings to minimum waste and premote environmental sustainability.
- To provide practical exposure to the participants, enabling them to undentand how technology is transforming modern agricultural practions.
- To recourage knowledge-sharing on the role of technology in improving familiar productivity.

Summers of the Viett:

Our department of Physics organized field vian to Shree Mahalaumi Ages Agency, Tangaon on Tuesday, 31° Decouder, 2024 at 02:30 PM. The session consenued with an informative introduction to the increasing use of buttery-powered pumps for irrigation, highlighting their energy effectorcy, cost-effectiveness, and environmental benefits. The Seid visit to Shree Mahadaumi Ages Agency provided a hande-on understanding of hattery-powered pumps used in agriculture, alongoide as introduction to Drip irrigation techniques.

The participants were taken on a visit of the agency's godown, where they were shown the operation of these advanced pumps, which are provened by hutteries, ensuring reduced dependency on traditional facil secrees. Proprietor Mr. Tusher Wagh demensional methods of recycling and disposing of old agricultural drip pipes officiently, with a focus on environmental sustainability. Also there was practical demonstrations of the working mechanism of Padcorp pumps, including how they optimize water usage in agriculture, the companied Padcorp pumps with traditional faci-possested pumps and their environmental impact.

The visit concluded with a Question & Answer sension, where students were encouraged to sak questions and share imagins based on their learnings. At the last, Dr. J.S. Ghadaka sir extended gratitude towards Proprieter Mr. Tushar Wagh, Shirer Mahalanni Agm Aganay, Taugson, for their warm hospitality and for providing on informative and engaging learning experience for our madents. We also thank our continuous for organisms, this visit and providing the students with an apportunity to experience multiworld agranduated practices. The field visit to Shree Mahalanni Agre Agency was an attricking experience for all the 19 participants.

Outsomes of the Visit:

- Increased Knowledge of Technological Advancements: The students gained practical least-edge about modern farming tools and techniques, especially the honorypresented pumps, which would revolutionate water usage in agriculture.
- Awareness of Sustainable Practices: The participants became more aware of the importance of adopting sustainable feeting practices, including better scrap management. They undendood how small, eco-friendly changes can lead to more efficient farming.
- Hands-on Experience: By participating in the live demonstrations, studies get an opportunity to experience the operation of the battery-powered pumps and better understand their practical applications in the field.
- Networking with Industry Exports: The visit provided an excellent opportunity for moderns to learner with professionals from the agriculture industry, allowing them to sait questions and learn from their experience.

Inspiration for Future Careers: The visit impried students to consider parazing cureers in agricultural technology, sustainable farming, and related fields, as they gained firsthand insight into low technology is transforming the agricultural socre.

Detailed Homes:

A highly informative guest lecture on "Career Opportunities in English" was organized for the BA and MA students by the Department of English. The event around to provide anidonts with valuable insights into the diverse career paths available to them with a degree in English. The externed guest speaker, Mr. A. R. Pundit, shared his expertise and experiences, offering practical advice and guidance: Mr. A. R. Pandit began his lecture by

emphasizing the unduring relevance of English language and literature in today's globalized world. He addressed the common misconception that an English degree leads only to teaching and proceeded to highlight a wide array of career options.

Mr. Pandir stressed the responsible of developing strong communication of the participant stressed the responsible. He encouraged students to activities and research skills. He encouraged students to activities participate in entracurricular activities, such as writing workshops, debutes, and literary successes, to enhance their skills.

htr. P. R. Khode, in his presidential address, communded htr. Pundit for his insightful laurer and emphasized the importance of English adacation in fostering implication growth and career development. He empassaged students to leverage their knowledge of English as purme their puniture and make treasungful contributions to society.

Ms. S. M. Kolzkar, the coordinator, played a pivotal role in organizing the event and amsuring its seasoth execution. Ms. V. D. jagdale, delivered a vote of thanks, expressing gratitude to Mr. Pandit for his valuable insights, Mr. Khade for his presence, and the students for their professionalic participation. Ms. V. D. Jagdale ancitored the programme nicely.
